General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in the application accurately describes all material terms of the transaction which is the subject of the exemption.

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for the Industry-Recognized Apprenticeship Programs Accrediting Entity Information collection. This ICR will enable ETA to collect essential data under Training and Employment Notice (TEN) No. 3–18 titled, “Creating Industry-Recognized Apprenticeship Programs to Expand Opportunity in America,” established under the statutory authority of the National Apprenticeship Act (29 U.S.C. 50), concerning the operational characteristics of certain industry-recognized apprenticeship programs. According to the TEN, these new industry-recognized apprenticeship programs will be reviewed and recognized by qualified accrediting entities; the accrediting entities, in turn, may request a determination from the Department concerning their qualifications. The TEN, pending a rulemaking to amend 29 CFR part 29, provides interim information and guidance to accreditors on the process for obtaining a determination from the Department on whether that entity’s standards meet the criteria outlined in TEN No. 3–18. To obtain a favorable determination from the Department, the accrediting entity should, among other things, demonstrate that it has received broad sector-wide input and consensus in the setting of industry-wide quality standards. The accrediting entity should also demonstrate that their program accreditation process ensures that the industry programs will operate in a manner consistent with DOL-identified hallmarks of high-quality apprenticeship programs. To collect the information necessary for the Department to determine whether the entity accrediting these industry-recognized apprenticeship programs has satisfied the foregoing criteria, the Department proposes the development of a form titled, “Industry-Recognized Apprenticeship Programs Accrediting Entity Information” intended for completion by the accrediting entity, that will enable the Department to determine whether that entity’s standards meet the criteria outlined in the TEN. The National Apprenticeship

Act of 1937 authorizes this information collection. *See* 29 U.S.C. 50.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. For additional substantive information about this ICR, see the related notice published in the **Federal Register*** on September 20, 2018 (83 FR 47643).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 201812–1205–001. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
