NATIONAL SCIENCE FOUNDATION

Agency Information Collection
Activities: Comment Request

ACTION: Notice.

SUMMARY: Under the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. U.S.C. 3506(c)(2)(A)), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation invites the general public and other Federal agencies to take this opportunity to

comment on this information collection. This is the second notice for public comment; the first was published in the **Federal Register** at 71 FR 51641 and no substantive comments were received regarding the materials provided. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Comments regarding these information collections are best assured of having their full effect if received by OMB within 30 days of publication in the **Federal Register**.

ADDRESSES: Written comments regarding the information collection and

requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov. Copies of the submission may be obtained by calling (703) 292-7556.

FOR ADDITIONAL INFORMATION OR

COMMENTS: Contact Suzanne Plimpton, the NSF Reports Clearance Officer, phone (703) 292-7556, or send e-mail to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8

p.m., Eastern time, Monday through Friday.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance of the Science Resources Statistics Survey Improvement Projects.

OMB Approval Number: 3145-0174.

Abstract: Generic Clearance of the Science Resources Statistics Survey Improvement Projects. The National Science Foundation's Division of Science Resources Statistics (NSF/SRS) needs to collect timely data on constant changes in the science and technology sector and to provide the most complete and accurate information possible to policy makers in Congress and throughout government and academia. NSF/SRS conducts many surveys to obtain the data for these purposes. The Generic Clearance will be used to ensure that the highest quality data are obtained from these surveys. State-of-the-art methodology will be used to develop, evaluate, and test

questionnaires and survey concepts as well as to improve survey methodology. This may include field or pilot tests of questions for future large-scale surveys, as needed.

Expected Respondents: The respondents will be from industry, academia, nonprofit organizations, members of the public, and state, local, and federal governments. Respondents will be either individuals or institutions, depending upon the survey under investigation. Qualitative procedures will generally be conducted in person or over the phone, but quantitative procedures may be conducted using mail, web, e-mail, or phone modes, depending on the topic under investigation. Up to 19,150 respondents will be contacted across all survey improvement projects. No respondent will be contacted more than twice in one year under this generic clearance. Every effort will be made to use technology to limit the burden on respondents from small entities.

Both qualitative and quantitative methods will be used to improve NSF's current data collection instruments and processes and to reduce respondent burden, as well as to develop new surveys. Qualitative methods include, but are not limited to, expert review; exploratory, cognitive, and usability interviews; focus groups; and respondent debriefings. Cognitive and

usability interviews may include the use of scenarios, paraphrasing, card sorts, vignette classifications, and rating tasks. Quantitative methods include, but are not limited to, telephone surveys, behavior coding, split panel tests, and field tests.

Information being collected is not considered sensitive. In general, assurances of data confidentiality will not be provided to respondents in the pretests. Instead, respondents have the option of requesting that any and all data they provide be kept confidential.

Use of the Information: The purpose of these studies is to use the latest and most appropriate methodology to improve NSF surveys. The data will be used internally to improve NSF surveys. Methodological findings may be presented externally in technical papers at conferences, published in the proceedings of conferences, or in journals. Improved NSF surveys will help policy makers in decisions on research and development funding, graduate education, scientific and technical workforce, regulations, and reporting guidelines, as well as contributing to reduced survey costs.

Burden on the Public: NSF estimates that a total reporting and recordkeeping burden of 14,950 hours will result from activities to improve its surveys. The calculation is:

TABLE 1.—ANTICIPATED SURVEYS TO UNDERTAKE IMPROVEMENT PROJECTS, ALONG WITH THE NUMBER OF RESPONDENTS AND BURDEN HOURS PER SURVEY FOR THREE YEAR PERIOD

Survey Name	Number of respondents ¹	Hours
Graduate Student Survey	25,000	3,000
SESTAT Surveys	10,000	5,000
Postdoc Project	800	1,600
New and Redesign R&D Surveys:		
Academic R&D	600	1,200
Government R&D	50	100
Nonprofit R&D	200	100
Industry R&D	500	2,000
Survey of Scientific & Engineering Facilities	300	150
Public Understanding of S&E Surveys	200	50
Survey of Earned Doctorates	300	550
Additional surveys not specified	1,200	1,200
Total	19,150	14,950

¹ Number of respondents listed for any individual survey may represent several methodological improvement projects.

² This number refers to the science, engineering, and health-related departments within the academic institutions of the United States (not the academic institutions themselves).

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed

collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to

respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB

approval of this information collection; they also will become a matter of public record.

Dated: November 15, 2006.

Suzanne Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR WASTE TECHNICAL REVIEW BOARD

Privacy Act of 1974; Systems of Records

AGENCY: U.S. Nuclear Waste Technical Review Board.

ACTION: Notice of modification to two existing systems of records.

SUMMARY: USC 552a requires that each federal agency review its systems of records containing personal information covered by the Privacy Act of 1974. As a result of its latest review, the Board is proposing to amend both of the systems of records that it maintains. A description of these systems was last published in November 22, 1996 (61 FR 227, 59472-59473). The Board has concluded that one system needs to be amended and that the second system needs to be expanded to include other information useful to the Board. In the first system, NWTRB-1 Administrative Files, some categories were overlooked in the previous notice. The Board is proposing to expand the second system, NWTRB-2 Mailing List, to become NWTRB-2 Contact List. The Board has determined that the changes to NWTRB-1 are important enough to republish the notice with the changes and that the changes to NWTRB-2 are substantial enough to accept comments on the proposed expansion.

DATES: Comments on the changes to NWTRB-2 should be received before January 15, 2007.

ADDRESSES: Comments on this proposed rule may be submitted as follows:

By mail or hand delivery: Joyce M. Dory, Director of Administration; U.S. Nuclear Waste Technical Review Board; 2300 Clarendon Blvd., Suite 1300; Arlington, VA 22201.

By Fax: 703-235-4495.

To the Federal eRulemaking Portal: <http://www.regulations.gov>.

Via the Board Web site at <http://www.nwtrb.gov> via the "contact us" function.

All comments on this proposed Privacy Act rule modification should be clearly identified as such.

FOR FURTHER INFORMATION CONTACT: Victoria Reich, 703-235-4473.

SUPPLEMENTARY INFORMATION: The Board currently maintains two systems of records, NWTRB-1 and NWTRB-2, that contain information covered by the Privacy Act of 1974. In its review of these systems, the Board has found classes of information that were not included in its previous notice and is republishing the first, NWTRB-1, with the corrections added. The Board further found that expanding the records in the second, NWTRB-2, would make it more useful.

List of Subjects

Administrative practice and procedure; Privacy; Reporting and recordkeeping requirements.

NWTRB-1

SYSTEM NAME:

Administrative Files.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

U.S. Nuclear Waste Technical Review Board; 2300 Clarendon Boulevard, Suite 1300; Arlington, VA 22201.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees and applicants for employment with the Board, including NWTRB contractors and consultants.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records containing the following information:

- (1) Time and attendance;
- (2) Payroll actions, direct deposit, and deduction information;
- (3) Personnel actions, evaluations, and other data;
- (4) Authorizations for overtime and night differential;
- (5) Credit cards and telephone calling cards issued to individuals;
- (6) Destination, itinerary, mode and purpose of travel;
- (7) Date(s) of travel and all expenses;
- (8) Passport number;
- (9) Request for advance of funds and voucher with receipt;
- (10) Travel authorizations;
- (11) Name, address, Social Security number, and birth date;
- (12) Employee public transit subsidy applications and vouchers;
- (13) Security clearance information; and
- (14) 450's.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Law 100-203, Part E.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM:

Information is used "in house." Notwithstanding the above, access also

may be gained under the following conditions:

(a) In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statutes, or rule, regulation, or order issued pursuant thereto.

(b) A record from the system of records may be disclosed as a "routine use" to a federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit.

(c) A record from this system of records may be disclosed to a federal agency, in response to a request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefits by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

POLICY AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper and electronic records.

RETRIEVABILITY:

By type of document, then by name.

SAFEGUARDS:

Access is limited to employees having a need to know. Records containing personal information are stored in locked file cabinets in controlled-access areas or in password-protected electronic databases in accordance with federal guidelines.

RETENTION AND DISPOSAL:

Record retention and disposal authorities are in "General Records Schedules" published by National
