

EIS with assistance from advisors and consultants. The GMP/EIS will propose a long-term approach (15 to 20 years) to managing Roosevelt-Vanderbilt National Historic Sites that is consistent with the sites' mission, NPS policy, and other laws and regulations. As required by law and policy, during the planning process, the team will formulate a range of alternatives for natural and cultural resource protection, visitor use and interpretation, and operations. The EIS will assess the impacts of the alternative management strategies to be described in the plan. The team will invite the public to share their thoughts and ideas related to the management of the national historic sites early in the planning process and throughout the preparation of the GMP/EIS through public meetings, the Internet, and other media. Specifically, the team will seek public comment at the draft GMP/EIS phase. Following public review processes outlined under National Environmental Protection Act, the final plan will become official through the approval of a Record of Decision, which will authorize implementation of the preferred alternative. The Record of Decision is expected to be completed in 2008.

Accordingly, the Commission has terminated the investigation with a finding of no violation of section 337.

The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION: This investigation was instituted by the Commission based on a complaint filed by FANUC Robotics America, Inc. ("FANUC") of Rochester Hills, Michigan. 70 FR 2881 (January 18, 2005). The complainant alleged violations of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337 ("section 337") in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain electric robots and component parts thereof by reason of infringement of claims 1-24 of U.S. Patent No. 6,477,913 ("the '913 patent"). The complaint and notice of investigation named Behr Systems, Inc. of Auburn Hills, Michigan, Dürr AG of Stuttgart, Germany (collectively "Dürr"), Motoman, Inc. of West Carrollton, Ohio, and Yaskawa Electric Corporation of Kitakyushu, Fukuoka, Japan ("Yaskawa") as respondents.

On April 26, 2005, the ALJ issued an ID, Order No. 6, which terminated the investigation as to claims 3, 5, and 16 of the '913 patent against respondents Dürr and Behr and terminated the investigation as to claim 6 of the '913 patent against all respondents. On May 15, 2005, the Commission determined not to review Order No. 6.

On May 2, 2005, the ALJ issued an ID, Order No. 7, which granted complainant's motion to amend the complaint to add Dürr Systems, Inc., Dürr Systems GmbH, and Dürr Special Material Handling GmbH as respondents and clarified complainant's claims of contributory and induced infringement. On May 20, 2005, the Commission determined not to review Order No. 7.

On May 31, 2005, the ALJ issued an ID, Order No. 9, which terminated the

investigation as to claims 1–5, 7–9, and 15–17 of the ‘913 patent against respondents Motoman and Yaskawa, claims 1–2, 4, 7–9, 15, and 17 against respondents Behr and Dürr, and claims 1–9 and 15–17 against newly added respondents Dürr Systems, Inc., Dürr Systems GmbH, and Dürr Special Material Handling GmbH. On June 16, 2005, the Commission determined not to review Order No. 9.

On August 23, 2005, the ALJ issued an ID, Order No. 15, which granted complainant’s motion for summary determination regarding the economic prong of the domestic industry requirement of section 337. On September 12, the Commission determined not to review Order No. 15. An evidentiary hearing was held from September 16–23, 2005.

The claims remaining at issue are claims 10–14 and 18–24 of the ‘913 patent, which claims are asserted against all respondents.

On December 19, 2005, the ALJ issued his final ID and recommended determinations on remedy and bonding. The ALJ found no violation of section 337 based on his findings that respondents’ accused products do not infringe any of the asserted claims of the ‘913 patent; that the asserted claims of the ‘913 patent are not invalid; that the ‘913 patent is enforceable; and that a domestic industry exists.

On December 28, 2005, the Commission investigative attorney (“IA”), filed a request for a two-day extension of time to file his response to the petitions for review, and that request was granted by the Chairman.

On December 30, 2005, complainant FANUC filed a petition for review of the final ID, and a separate conditional petition for review of the ID. Additionally, on the same date, respondents Yaskawa, Dürr, and the IA filed petitions for review of the ID. On January 9, 2006, Yaskawa and Dürr filed responses to complainant FANUC’s petitions for review, and complainant FANUC filed a response to Yaskawa, Dürr, and the IA’s petitions for review. On January 11, 2006, the IA filed a response to complainant FANUC’s petition for review.

On January 17, 2006, Yaskawa filed a motion to strike untimely and previously stricken arguments in the response brief of complainant FANUC regarding motor purge tests conducted by Yaskawa. The IA concurs with this motion. On January 27, 2006, FANUC filed a response to Yaskawa’s motion to strike. Having considered the motion to strike and the response thereto, the Commission has determined to grant Yaskawa’s motion.

Having reviewed the record in this investigation, including the parties’ written submissions, the Commission has determined not to review the ALJ’s final ID, thereby allowing it to become the Commission’s final determination. The Commission has terminated the investigation with a finding of no violation.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and section 210.42 of the Commission’s Rules of Practice and Procedure, 19 CFR 210.42.

Issued: February 3, 2006.

By order of the Commission.

Marilyn R. Abbott,

Secretary of the Commission.
