**AGENCY:** Bureau of Indian Affairs, Interior.

**ACTION:** Notice.

**SUMMARY:** This notice advises the public that the Bureau of Indian Affairs (BIA) intends to cancel work on the Environmental Impact Statement (EIS) for the proposed reconstruction of BIA Route 27 near Wounded Knee, South Dakota, and instead, prepare an Environmental Assessment for the proposed action. The Notice of Intent to prepare the EIS, which included a description of the proposed action, was published in the **Federal Register** on August 22, 2005 (70 FR 48972).

**DATES:** This cancellation is effective December 27, 2006. Written comments must arrive by December 26, 2006.

**FOR FURTHER INFORMATION CONTACT:** Marilyn Bercier, (605) 226–7656.

**SUPPLEMENTARY INFORMATION:** The BIA is canceling work on this EIS because scoping and analysis completed to date, including a public scoping meeting held September 13, 2005, in Manderson, South Dakota, and consultation under section 106 of the National Historic Preservation Act and section 7 of the Endangered Species Act, have shown

that the proposed action would have no significant impact on the environment. The EIS is therefore being converted to an Environmental Assessment (EA). A Notice of Availability of the Finding of No Significant Impact, which will include information on how to obtain a copy of the EA, will be published and/or posted in the same places (except the **Federal Register**) as the Notice of Intent to prepare the EIS and will be sent to all parties on any mailing list relating to the EIS process for this project.

**SUPPLEMENTARY INFORMATION:** On March 24, 2004, BBCC filed an LBA with the BLM, to access Federal coal reserves adjacent to their existing Black Butte Mine in Sweetwater County, Wyoming. The LBA tract is approximately 28 miles southeast of Rock Springs, Wyoming, and comprises the following public lands:

T. 17 N., R. 101 W., 6th PM, Wyoming  
sec. 2: Lots 3, 4, SW $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
sec. 4: Lots 1, 2, S $\frac{1}{2}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ ,  
NE $\frac{1}{4}$ SW $\frac{1}{4}$ , S $\frac{1}{2}$ SW $\frac{1}{4}$ , SE $\frac{1}{4}$ ;  
sec. 10: NW $\frac{1}{4}$ , N $\frac{1}{2}$ SW $\frac{1}{4}$ ;

T. 18 N., R. 101 W., 6th PM, Wyoming  
sec. 34: E $\frac{1}{2}$ , E $\frac{1}{2}$ NW $\frac{1}{4}$ , SW $\frac{1}{4}$ .

Containing 1,399.48 acres, more or less.

The Black Butte Coal Mine started operations in the late 1970s and continues to operate today. Additional mineable coal reserves are needed to meet the growing regional demand for electricity, including electricity supplied by the Jim Bridger Power Plant. BBCC estimates that approximately 34.6 million tons of in-place coal reserves are present in the Upper Cretaceous Almond Formation within the project area.

The Office of Surface Mining Reclamation Enforcement (OSMRE) is a cooperating agency in the preparation of this Environmental Impact Statement (EIS). If the tract is leased as a maintenance tract, the new lease must be incorporated into the existing mining and reclamation plan for the adjacent mine. The Secretary of the Interior must approve the revision to the Mineral Leasing Act (MLA) mining plan before the Federal coal can be mined. If the tract is leased, OSMRE is the Federal agency that would be responsible for recommending approval, approval with conditions, or disapproval of the revised MLA mining plan to the Secretary of the Interior.

On January 7, 2005, the BLM published its Notice of Intent (NOI) to prepare an EIS for the Pit 14 Coal LBA (WYW160394) in the **Federal Register**. On March 24, 2006, both the BLM and the EPA published NOAs of the Draft Environmental Impact Statement (DEIS) for the Pit 14 Coal LBA project for a 60-day comment and review period. Under the provisions of Federal coal

regulations at 43 Code of Federal Regulations (CFR) 3425.4, a public hearing was held at 2 p.m. on May 10, 2006, at the BLM Rock Springs Field Office, Rock Springs, WY. The purpose of the hearing was to solicit comments on the DEIS, fair market value, and the maximum economic recovery of the Federal coal. Seven comment letters on the DEIS were received during the review and comment period, and two statements were recorded during the public coal hearing (of which one statement was subsequently submitted as a comment letter).

The FEIS analyzes two alternatives in detail:

1. The Proposed Action. This alternative analyzes the impacts of leasing Federal coal and the impacts associated with surface mining.

2. The No Action Alternative. This alternative would reject the coal lease application as submitted.

BLM's preferred alternative is the Proposed Action. The Proposed Action is in conformance with the Green River Resource Management Plan (1997).

A Record of Decision (ROD) will be prepared after the close of the comment period for the FEIS. Comments received on the FEIS will be considered during preparation of the ROD.

Dated: September 22, 2006.

State Director.
