

representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: For information on the NEPA aspect of the project, please call Teri Deakins at 307-352-0211. For information on coal leasing, please call Joanna Nara-Kloepper, Project Leader, at 307-352-0321.

SUPPLEMENTARY INFORMATION: On March 24, 2004, BBCC filed an LBA with the BLM, to access Federal coal reserves adjacent to their existing Black Butte Mine in Sweetwater County, Wyoming. The LBA tract is approximately 28 miles southeast of Rock Springs, Wyoming, and comprises the following public lands:

T. 17 N., R. 101 W., 6th PM, Wyoming
sec. 2: Lots 3, 4, SW $\frac{1}{4}$ NW $\frac{1}{4}$;
sec. 4: Lots 1, 2, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$,
NE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$;
sec. 10: NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$;

T. 18 N., R. 101 W., 6th PM, Wyoming
sec. 34: E $\frac{1}{2}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$.

Containing 1,399.48 acres, more or less.

The Black Butte Coal Mine started operations in the late 1970s and continues to operate today. Additional mineable coal reserves are needed to meet the growing regional demand for electricity, including electricity supplied by the Jim Bridger Power Plant. BBCC estimates that approximately 34.6 million tons of in-place coal reserves are present in the Upper Cretaceous Almond Formation within the project area.

The Office of Surface Mining Reclamation Enforcement (OSMRE) is a cooperating agency in the preparation of this Environmental Impact Statement (EIS). If the tract is leased as a maintenance tract, the new lease must be incorporated into the existing mining and reclamation plan for the adjacent mine. The Secretary of the Interior must approve the revision to the Mineral Leasing Act (MLA) mining plan before the Federal coal can be mined. If the tract is leased, OSMRE is the Federal agency that would be responsible for recommending approval, approval with conditions, or disapproval of the revised MLA mining plan to the Secretary of the Interior.

On January 7, 2005, the BLM published its Notice of Intent (NOI) to prepare an EIS for the Pit 14 Coal LBA (WYW160394) in the **Federal Register**. On March 24, 2006, both the BLM and the EPA published NOAs of the Draft Environmental Impact Statement (DEIS) for the Pit 14 Coal LBA project for a 60-day comment and review period. Under the provisions of Federal coal

regulations at 43 Code of Federal Regulations (CFR) 3425.4, a public hearing was held at 2 p.m. on May 10, 2006, at the BLM Rock Springs Field Office, Rock Springs, WY. The purpose of the hearing was to solicit comments on the DEIS, fair market value, and the maximum economic recovery of the Federal coal. Seven comment letters on the DEIS were received during the review and comment period, and two statements were recorded during the public coal hearing (of which one statement was subsequently submitted as a comment letter).

The FEIS analyzes two alternatives in detail:

1. The Proposed Action. This alternative analyzes the impacts of leasing Federal coal and the impacts associated with surface mining.

2. The No Action Alternative. This alternative would reject the coal lease application as submitted.

BLM's preferred alternative is the Proposed Action. The Proposed Action is in conformance with the Green River Resource Management Plan (1997).

A Record of Decision (ROD) will be prepared after the close of the comment period for the FEIS. Comments received on the FEIS will be considered during preparation of the ROD.

Dated: September 22, 2006.

Robert A. Bennett,
State Director.

 Containing 3,581.27 acres more or less.

The Office of Surface Mining (OSM) will be a cooperating agency in the preparation of the EIS.

If the Alton Tract is leased, the OSM is the Federal agency that would prepare the documentation for the Assistant Secretary, Land and Minerals Management decision to approve, approve with conditions, or disapprove the Mining Plan. The BLM will provide interested parties the opportunity to submit comments or relevant information or both. This information will help BLM identify issues to be considered in preparing a draft EIS for the Alton Tract. Specific issues that have been identified at this time include: potential impacts in the vicinity of the tract to city and county facilities and occupied residences; livestock grazing, big game herds and hunting, sage grouse, listed threatened and endangered species, alluvial valley floors; potential health issues related to blasting operations conducted by the mines to remove overburden and coal; site-specific and cumulative impacts on air and water quantity/quality; and the need to consider the cumulative impacts of coal leasing decisions combined with other existing and proposed development in the affected areas.

The area included within this lease application was part of a larger area analyzed in response to a petition filed under Section 522 of the Surface Mining Control and Reclamation Act of 1977 to have federal lands declared unsuitable for all types of surface coal mining operations. The petition sought to have the lands declared unsuitable for coal mining because of impacts to air quality, visual resources, fish and wildlife resources, geologic features within Bryce Canyon National Park, and hydrology. The petitioners also questioned whether the lands could be reclaimed after mining. After an extensive evaluation, which included input from the public and a combined petition evaluation and environmental impact statement, the Secretary of the Interior, on December 16, 1980,

determined that the coal lands included in this lease application were not unsuitable for surface coal mining operations. The Secretary's decision is documented in a secretarial decision document entitled, "Petition to Designate Certain Federal Lands in Southern Utah Unsuitable for Surface Coal Mining" (OSM Reference No: 79-5-001).

Alton LLC has applied for a permit with the State of Utah to mine fee coal on private lands adjacent to this federal tract. That permit application is in progress and this federal tract, if approved, would be a continuation of that mining operation.

Your response is important and will be considered in the EIS process. If you respond, the BLM will keep you informed of the availability of environmental documents that address impacts that might occur from this proposal.

Please note that comments and information submitted regarding this project including names, electronic mail addresses, and street addresses of the respondents will be available for public review and disclosure at the Kanab Field Office.

If you comment as a private individual in your personal capacity, you may ask us to withhold personal identifying information from the public. You must do so prominently in writing at the beginning of your comments and must tell us precisely what you want us to withhold. You also must explain in detail why releasing that personal identifying information to the public would constitute a clearly unwarranted invasion of privacy. Individuals may request confidentiality. General assertions that are not supported by specific facts will not meet that burden.

We will withhold personal identifying information from release to the public in response to your request only where, in our judgment, you present sufficient factual justification for our doing so under current laws, regulations, and court decisions. Typically, notwithstanding your request, in all but the most exceptional circumstances, we will release to the public all of the personal identifying information that you submit.

If you comment as or on behalf of an organization or business, we will release your comments to the public in their entirety, including all personal identifying information. We will not consider a request from an organization or business, or anyone commenting on behalf of an organization or business, that we withhold any personal

identifying information from release to the public.

Rex Smart,

Kanab Field Manager.
