SUPPLEMENTARY INFORMATION:

Title: Agricultural Prices.

OMB Control Number: 0535–0003.

Expiration Date of Approval: June 30, 2007.

Type of Request: To revise and extend a currently approved information collection.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Agricultural Prices surveys provide data on the prices received by farmers and prices paid by them for production goods and services. NASS estimates based on these surveys are used by agencies of the U.S. Department of Agriculture to prepare the economic accounts of the United States. These price estimates are also used to compute Parity Prices in accordance with requirements of the Agricultural Adjustment Act of 1938 as amended (Title III, Subtitle A, Section 301a). In addition, price data are used by the Federal Crop Insurance Corporation to help determine payment rates, program option levels, and disaster programs.

The Agricultural Prices Survey was previously approved by OMB in 2004 for a 3-year period. NASS intends to request that the survey be approved for another 3 years.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–113) and Office of Management

and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Estimate of Burden: Public reporting burden for this information collection is based on 16 individual surveys with expected responses of 8–20 minutes and frequency of 1–12 times per year. Estimated number of responses per respondent is 2.03.

Respondents: Farmers and farm-related businesses.

Estimated Number of Respondents: 27,000.

Estimated Total Annual Burden on Respondents: 11,000 hours.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, NASS Clearance Officer, at (202) 720–5778.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

SUPPLEMENTARY INFORMATION:

Title: Field Crop Production.

OMB Control Number: 0535–0002.

Expiration Date of Approval: March 31, 2007.

Type of Request: To revise and extend a currently approved information collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Field Crop Production program consists of probability field crop surveys and supplemental panel surveys. The panel surveys capture unique crop

characteristics such as the concentration of crops in localized geographical areas. These surveys are extremely valuable for commodities where acreage and yield are published at the county level.

The Field Crop Production Program was last approved by OMB in 2004 for a 3-year period. NASS intends to request that the survey be approved for another 3 years.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. Estimate of Burden: Public reporting burden for this information collection is based on 19 individual surveys with expected responses of 10–80 minutes and frequency of 1–40 times per year. Estimated number of responses per respondent is 0.76.

Respondents: Farms.

Estimated Number of Respondents: 600,000.

Estimated Total Annual Burden on Respondents: 130,000 hours.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

SUPPLEMENTARY INFORMATION:

Title: Supplemental Qualifications Statement.

OMB Control Number: 0535–0209.

Expiration Date of Approval: March 31, 2007.

Type of Request: To revise and extend a currently approved information collection.

Abstract: Under Interagency Agreement Number DOA–1 between the Department of Agriculture and Office of Personnel Management, the USDA Administrative and Financial Management Staff examines, rates, and certifies applicants for Agricultural Statistician positions GS–1530 and Mathematical Statistician (Agricultural) GS–1529 positions within the National Agricultural Statistics Service. The Interagency Agreement was made under provisions of 5 U.S.C. 104, as amended by Pub. L. 104–52 (1995). Resumes, curriculum vitae, and the “Optional Application for Federal Employment” (OF–612) are general purpose forms used to evaluate applicants for positions in the Federal service. While these forms request specific information about an applicant, they do not always obtain details of the knowledge, skills, and abilities (KSA’s) that are critical to the job. The Supplemental Qualifications Statement for agricultural statistician and mathematical statistician (agricultural) positions allows applicants the opportunity to describe their achievements or accomplishments as they relate to the required KSA’s. The Supplemental Qualifications Statement was previously approved by OMB in 2004 for a 3-year period. NASS intends to request that the survey be approved for another 3 years.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 hours per response.

Respondents: Individual Job Applicants.

Estimated Number of Respondents: 50.

Estimated Total Annual Burden on Respondents: 150 hours.
