Forest Service

Title: Federal and Non-Federal Financial Assistance Instruments.

OMB Control Number: 0596-0217.

Summary of Collection: In order to carry out specific Forest Service (FS) activities, Congress created several authorities to assist the Agency in carrying out its mission. Authorized by the Federal Grants and Cooperative Agreements Act (FGCAA), the FS issues Federal Financial Assistance awards, (*i.e.*, grants and cooperative agreements). Agency specific authorities and appropriations also support use of Federal Financial Assistance awards. In addition to FFA, Congress created specific authorizations for acts outside the scope of the FGCAA. Appropriations language was developed to convey authority for the Forest Service to enter into relationships that are outside the scope of the FGCAA. Information in this request is collected from individuals; non-profit and for-profit institutions; institutions of higher education and state, local, and Native American tribal governments etc. Multiple options are available for respondents to respond including forms, non-forms, electronically, face-to-face, by telephone and over the internet.

Need and Use of the Information: From the pre-award to the close-out stage, FS will collect information from respondents on forms, via emails, meetings, and telephone calls. Using various forms respondents will describe the type of project, project scope, financial plan and other factors. To reach management decision on several Office of the Inspector General (OIG) Recommendations from the American Recovery and Reinvestment Act—Forest Service Hazardous Fuels Reduction and Ecosystem Restoration Projects on Non-Federal Lands Audit (Report No. 08703-0005-SF, Issued March 2013), several new forms were created. In addition, mandatory post-award meetings must be held for each new Federal financial assistance award. Without this information the FS would not be able to develop, implement, monitor and administer these agreements and

comply with the OIG audit recommendations.

Description of Respondents: Business or other for-profit; Not-for-profit Institutions; State, Local or Tribal Government; Individuals.

Number of Respondents: 4,874.

Frequency of Responses: Recordkeeping; Reporting: Quarterly; On occasion.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

The Agency received seven comments in response to the 60-day notice published in the **Federal Register** on December 5, 2017 (82 FR 57423). The comments were not related to the collection package or to USDA.
