To estimate the hourly cost for the residents of properties in the SSD, we translated the average monthly Social Security benefit for retired workers, which in 2017 was \$1,369 (<https://www.ssa.gov/news/press/factsheets/basicfact-alt.pdf>), into an hourly rate of \$7.90 (by multiplying by 12 months and dividing by 2,080 hours).

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: 24 CFR Part 50—Protection and Enhancement of Environmental Quality.

OMB Approval Number: 2506-0177.

Type of Request: Extension of currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: HUD requests its applicants to supply environmental information that is not otherwise available to HUD staff for the environmental review on an applicant's proposal for HUD financial assistance to develop or improve housing or community facilities. HUD itself must perform an environmental review for the purpose of compliance with its environmental regulations found at 24 CFR part 50, Protection and Enhancement of Environmental Quality. Part 50 implements the National Environmental Policy Act and implementing procedures of the Council on Environmental Quality, as well as the related federal environmental laws and executive orders. HUD's agency-wide provisions—24 CFR 50.3(h)(1) and 50.32—regulate how individual HUD program staffs are to utilize such collected data when HUD itself prepares the environmental review and compliance. Separately, individual HUD programs each have their own regulations and guidance implementing environmental and related collection responsibilities. For the next three years, this approved collection will continue unchanged under this OMB control number to assure adequate coverage for all HUD programs subject to part 50.

Respondents (i.e., affected public): Businesses, not-for-profit institutions, and local governments receiving HUD funding.

Estimated Number of Respondents: 1,800.

Estimated Number of Responses: 1,800.

Frequency of Response: 1.

Average Hours per Response: 3.

Total Estimated Burdens: 5,400.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Total	1,800	1	1,800	3	5,400	\$40.74	\$219,996

Number of responses per annum was based on a combination of data and estimates. Most, but not all, HUD programs complete their part 50

environmental reviews using the HUD Environmental Review Online System (HEROS). There were 1,565 part 50 environmental reviews completed in

HEROS in calendar year 2017. HUD estimates that, with the additional part 50 environmental reviews completed outside of HEROS, roughly 1,800 part 50

environmental reviews were completed overall in 2017.

This information collection may be completed by a number of different types of respondents, but most applicants hire a consultant to assist with this collection. Hourly cost per response based was on hourly mean wage of environmental engineers working in technical consulting services (Bureau of Labor Statistics, <https://www.bls.gov/oes/current/oes172081.htm>).

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Single Family Mortgage Insurance for Hawaiian Homelands.

OMB Approval Number: 2502-0358.

Type of Request: Extension of currently approved collection.

Form Number: None.

Description of the Need for the Information and Proposed Use: FHA insures mortgages on single-family dwellings under provisions of the National Housing Act (12 U.S.C. 1709). The Housing and Urban Rural Recovery Act (HURRA), Public Law 98-181, amended the National Housing Act to add Section 247 (12 U.S.C. 1715z-12) to permit FHA to insure mortgages for properties located on Hawaiian Homelands. Under this program, the mortgage must be a native Hawaiian. In

accordance with 24 CFR 203.43i, the collection of information is verification that a loan applicant is a native Hawaiian and that the applicant holds a lease on land in a Hawaiian Homelands area. A borrower must obtain verification of eligibility from DHHL and submit it to the lender. A borrower cannot obtain a loan under these provisions without proof of status as a native Hawaiian. United States citizens living in Hawaii are not eligible for this leasehold program unless they are native Hawaiians. The eligibility document is required to obtain benefits. In accordance with 24 CFR 203.439(c), lenders must report monthly to HUD and the DHHL on delinquent borrowers and provide documentation to HUD to support that the loss mitigation requirements of 24 CFR 203.602 have been met. To assist the DHHL in identifying delinquent loans, lenders report monthly. A delinquent mortgage that is reported timely would allow DHHL to intervene and prevent foreclosure.

Respondents (i.e. affected public): Individuals (loan applicants) and Business or other for-profit (lenders).

Estimated Number of Respondents: 15,871.

Estimated Number of Responses: 446.

Frequency of Response: Monthly and on occasion.

Average Hours per Response: 5 minutes per response (.08 hours) for review of certification and lease, and 25 minutes (.42 hours) per response for delinquency reporting.

Total Estimated Burdens: 51.32.
