(a) *In general.* Notwithstanding any section of the Internal Revenue Code, the Internal Revenue Service (IRS) may terminate or suspend disclosure of returns and return information to any authorized recipient specified in subsection (p)(4) of section 6103, if the IRS makes a determination that:

(1) The authorized recipient has allowed an unauthorized inspection or disclosure of returns or return information and that the authorized recipient has not taken adequate corrective action to prevent the recurrence of an unauthorized inspection or disclosure, or

(2) The authorized recipient does not satisfactorily maintain the safeguards prescribed by section 6103(p)(4), and has made no adequate plan to improve its system to maintain the safeguards satisfactorily.

(b) *Notice of IRS's intention to terminate or suspend disclosure.* Prior to terminating or suspending authorized disclosures, the IRS will notify the authorized recipient in writing of the IRS's preliminary determination and of the IRS's intention to discontinue disclosure of returns and return information to the authorized recipient. Upon so notifying the authorized recipient, the IRS, if it determines that tax administration otherwise would be seriously impaired, may suspend further disclosures of returns and return information to the authorized recipient pending a final determination by the Commissioner or a Deputy Commissioner described in paragraph (d)(2) of this section.

(c) *Authorized recipient's right to appeal.* An authorized recipient shall have 30 days from the date of receipt of a notice described in paragraph (b) of this section to appeal the preliminary determination described in paragraph (b) of this section. The appeal shall be made directly to the Commissioner.

The request must include a complete description of the authorized recipient's present system of safeguarding returns or return information, as well as a complete description of its practices with respect to the inspection, disclosure, and use of the returns or return information it (including any authorized contractors or agents) receives under the Internal Revenue Code. The request then must state the reason or reasons the authorized recipient believes that such system, or practice, including improvements, if any, to such system or practice expected to be made in the near future, is or will be adequate to safeguard returns or return information.

(2) Within 45 days of the receipt of the request made in accordance with the provisions of paragraph (d)(1) of this section, the Commissioner or Deputy Commissioner personally will hold a conference with representatives of the authorized recipient, after which the Commissioner or Deputy Commissioner will make a final determination with respect to the appeal.

(e) *Effective date.* This section is applicable to all authorized recipients of returns and return information that are subject to the safeguard requirements set forth in section 6103(p)(4) on or after February 23, 2006.

BILLING CODE 5001-06-M

POSTAL SERVICE**39 CFR Part 111****Bundling Flat-Size and Irregular Parcel Mail**

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This final rule requires mailers to use two bands to secure all bundles of presorted flat-size mail and irregular parcels when those bundles are not shrinkwrapped.

DATES: *Effective Date:* April 30, 2006.

FOR FURTHER INFORMATION CONTACT: Bill Chatfield, 202-268-7278.

SUPPLEMENTARY INFORMATION:**Background**

We published a proposal in the **Federal Register** (70 FR 66314; November 2, 2005) to require mailers to use at least two bands—one band around the length and one around the width—when only banding is used to secure bundles of flat-size and irregular parcel mailpieces. This requirement eliminates the current option to place only one band around bundles 1-inch thick or less.

Bundle integrity—the ability of bundles to remain intact—is crucial for our new, high-speed Automated Package Processing System (APPS). When bundles break open, we lose the value of mailers’ presort, and we must handle individual pieces manually. Manual handling of mailpieces from broken or loose bundles results in delayed delivery and increases our processing costs.

Comments Received

We received two comments on our proposal. One commenter said it may be difficult to use two bands and maintain visible address and presort information on the top piece of each bundle. Secure bundles with visible addresses and presort designations are key APPS requirements. Mailers may use clear, smooth strapping or place the address on an unobscured part of the mailpiece (for example, in the center of one of the quadrants on the face of the mailpiece). Mailers may avoid banding altogether by shrinkwrapping bundles.

The commenter also said that the new address visibility requirement should have been published together with the new bundling standards. While we changed the standards for address visibility on October 27, 2005, mailers were given a 6-month grace period to comply. We encourage mailers to meet those standards as soon as possible, but mailers are not required to comply until April 30, 2006. The April 30, 2006, implementation date for the new bundling standards matches the compliance date for address visibility.

The second commenter disagreed that bundles prepared with only banding should be required to have bands around the length and width. The commenter stated that, in some cases,

using two parallel bands around the width of the bundle is sufficient.

The standards that require at least one band around the length and one around the width for most bundles are not new standards and help ensure that bundles maintain their integrity. Mailers may use two parallel bands around the width when it can increase the integrity of the bundle, but these bands must be in addition to a third band around the length. The new standard requiring at least one band around the length and one around the width for all bundles that are not shrinkwrapped will prevent even small bundles from falling apart.

Effective Date

Mailers must prepare presort bundles of flat-size mail and irregular parcels according to the new standards beginning April 30, 2006, but we encourage mailers to follow the new standards immediately.
