FINAL RESULTS OF REVIEW

As stated in the *Preliminary Results*, the Department confirmed that neither NKK nor SMI made sales of subject merchandise during the POR. Additionally, neither JFE nor Nippon participated in this review. We did not receive comments on either our preliminary decision to rescind the review with respect to NKK and SMI, nor on our decision to apply an adverse facts available (AFA) rate to JFE and Nippon.¹ Accordingly, we do not have any reason to reconsider our preliminary decision. Therefore, consistent with the Department's preliminary results of this review, and in accordance with 19 CFR § 351.213(d)(3), we are rescinding the instant review with respect to both NKK and SMI and have made no changes to the weighted-average dumping margins applied to JFE and Nippon in the preliminary results of this administrative review.

We determine that the following dumping margins exist for the period August 1, 2003, through July 31, 2004:

Manufacturer/Exporter	Margin (percent)
JFE Steel Corporation	44.20
Nippon Steel Corporation	44.20

DUTY ASSESSMENT

The Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries, pursuant to 19 CFR § 351.212(b). We will direct CBP to assess the dumping rate listed above against all subject merchandise manufactured or exported by JFE or Nippon, and entered or withdrawn from warehouse for consumption during the POR. For all subject merchandise

¹ As AFA, we applied the highest rate from the investigation, 44.20 percent, which is also the only rate determined in the investigation. See *Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Oil Country Tubular Goods from Japan*, 60 FR 155 (August 11, 1995) (*Amended Final Determination*).

manufactured by either NKK or SMI that was entered or withdrawn from warehouse for consumption during the POR, we will direct CBP to liquidate at the "all others" rate, 44.20 percent, as all such sales were made by intermediary companies (e.g., resellers) not covered in this review, a prior review, or the less than fair value (LTFV) investigation. *See Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003). The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of these final results of review.

CASH DEPOSIT REQUIREMENTS

The following cash deposit rates will be effective with respect to all shipments of OCTG from Japan entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results, as provided for by section 751(a)(1) of the Act: (1) for JFE and Nippon, the cash deposit rate shall be 44.20 percent (the AFA rate from the investigation); (2) for previously reviewed or investigated companies not listed above, including NKK and SMI, the cash deposit rate will continue to be the company-specific rate established for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the LTFV investigation, but the manufacturer is, the cash deposit rate will continue to be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered by this review, a prior review, or the LTFV investigation, the cash deposit rate shall be the "all others" rate established in the LTFV investigation, which is 44.20 percent. *See Amended Final Determination*. These deposit rates, when imposed, shall remain in effect until publication of the final results of the next administrative review.

NOTIFICATION TO IMPORTERS

This notice serves as a final reminder to importers of their responsibility under 19 CFR § 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

ADMINISTRATIVE PROTECTIVE ORDERS

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR § 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation that is subject to sanction.

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: December 23, 2005.

Acting Assistant Secretary for Import Administration.

Welded ASTM A-312 Stainless Steel Pipe from South Korea and Taiwan: Notice of Final Results of Expedited ("Sunset") Reviews of Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On September 1, 2005, the Department of Commerce ("the Department") published a notice of initiation of the second sunset reviews of the antidumping duty orders on welded ASTM A-312 stainless steel pipe ("WSSP") from South Korea ("Korea") and Taiwan, pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate and adequate substantive responses from the domestic interested parties and no response from respondent interested parties, the Department has conducted expedited sunset reviews of these antidumping duty orders. As a result of these sunset reviews, the Department finds that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping at the level indicated in the "Final Results of Review" section of this notice.

EFFECTIVE DATE: January 3, 2006.

SUPPLEMENTARY INFORMATION:

Background

On September 1, 2005, the Department published a notice of initiation of the second sunset reviews of the antidumping duty orders on WSSP from Korea and Taiwan, pursuant to section 751(c) of the Act. *See Initiation of Five-year ("Sunset") Reviews*, 70 FR 52074 (September 1, 2005).

We received notices of intent to participate, in each of the two sunset reviews, on behalf of Bristol Metals, L.P. and Marcegaglia U.S.A., Inc. (collectively, "the domestic interested parties"), within the deadline specified in section 351.218(d)(1)(i) of the Department's regulations. The domestic interested parties claimed interested party status as producers of the subject merchandise pursuant to section 771(9)(C) of the Act. The domestic interested parties were petitioners in the original investigations, or successors to petitioners, and have participated in subsequent reviews.

On September 29, 2005, the Department received complete substantive responses to the notice of initiation from the domestic interested parties within the 30-day deadline specified in section 351.218(d)(3)(i) of the Department's regulations. The Department received no substantive responses from respondent interested parties. Based on these circumstances, pursuant to sections 751(c)(3)(B) of the Act and 351.218(e)(1)(ii)(C), the Department has conducted expedited reviews of these orders.

Scope of the Orders

The merchandise subject to each of these antidumping duty orders is WSSP that meets the standards and specifications set forth by the American Society for Testing and Materials ("ASTM") for the welded form of chromium-nickel pipe designated ASTM A-312. The merchandise covered by the scope of each order also includes austenitic welded stainless steel pipes made according to the standards of other nations which are comparable to ASTM A-312. WSSP is produced by forming stainless steel flat-rolled products into a tubular configuration and welding along the seam. WSSP is a commodity product generally used as a
