

for the proper performance of the functions of the agency, including whether information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

BLM plans to seek from the Office of Management and Budget extension of approval for the information collection requirements in 43 CFR Parts 3500

through 3580, which cover the leasing of solid minerals other than coal and oil shale. These regulations implement the statutory authority governing leasing activities on Federal lands which is found in the Mineral Leasing Act of 1920 (30 U.S.C. 181 *et seq.*), the Mineral Leasing Act for Acquired Lands of 1947 (30 U.S.C. 351-359), Section 402 of Reorganization Plan No. 3 of 1946 (5 U.S.C. Appendix 1031), the Multiple Mineral Development Act of 1954 (30 U.S.C. 521-531), the National Environmental Policy Act of 1969 (42 U.S.C. 4321), and the Federal Land Policy and Management Act of 1967 (43 U.S.C. 1701 *et seq.*).

The implementing regulations outline procedures for members of the public to submit applications, offers, statements, petitions, and various forms. The

information required in the applications, statements and petitions is needed by BLM to determine applicant qualifications to hold a lease to obtain a benefit under the terms of the MLA and its subsequent amendments and the regulations. Information collection requirements are based on the statutory requirements concerning the qualifications and eligibility to hold title to or interest in Federal mineral leases and on the regulatory requirements relating to the identification, location and quality of minerals under application and identification of proposed operational activities. The affected public consists of all prospective holders of Federal non-energy leases, prospecting permits, use permits, and exploration licenses.

Based on its experience administering the leasing program, BLM estimates that it will take an average of about three hours to complete the applications, petitions, offers and statements required. The applicants will have access to records, plats and maps necessary for providing legal land descriptions. The type of information necessary is outlined in the regulations and is already maintained by the respondents for their own recordkeeping purposes and needs only to be compiled in a reasonable format. The estimate also includes the time required for assembling the information, as well as the time of clerical personnel, if needed.

BLM estimates that approximately 1,246 filings will be made annually for a total of 3,722 reporting hours. Respondents vary from individuals to

small businesses and major corporations.

Any interested member of the public may request and obtain, without charge, copies of any of forms listed in this notice by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become part of the public record.

# **Notice of Realty Action: Recreation and Public Purposes (R&PP) Act Classification; Beaverhead County, Montana**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The following public lands in Beaverhead County, Montana, have been examined and found suitable for classification for lease or conveyance to the State of Montana under the provisions of the Recreation and Public

Purposes Act, as amended (43 U.S.C. 869 *et seq.*). The State of Montana proposes to use the lands for inclusion into the Bannack State Park and Historical Area.

Principal Meridian Montana

- T. 8 S., R. 11 W.,  
Sec. 5, Lots 4, 7, 8, SWNW, NWSW,  
Sec. 6, Lots 1-9, 11, S2NE, SENW,  
Sec. 7, Lots 1, 4, 5, 6, 9, 11, 14, 16, 17,  
N2NESW, N2NWNWSE,  
Sec. 8, Lots 4, 5, 6,
- T. 8 S., R. 12 W.,  
Sec. 1, Lot 6,  
Sec. 12, E2NE,  
Containing 958.24 acres more or less.

The lands are not needed for Federal purposes. Lease and/or conveyance is consistent with current BLM land use planning and would be in the public interest. A lease will be issued for those lands which may be encumbered. For those lands which are not encumbered or become unencumbered, a patent will be issued. The lease or patent, when issued, will be subject to the following terms, conditions and reservations:

1. Provisions of the Recreation and Public Purposes Act and to all applicable regulations of the Secretary of the Interior.

2. A right-of-way for ditches and canals constructed by the authority of the United States.

3. All minerals shall be reserved to the United States, together with the right to prospect for, mine and remove the minerals.

4. The lands will be conveyed subject to all valid, existing rights (e.g., rights-of-way, easements and leases of record).

Furthermore, the decision is to revoke Executive Order dated April 15, 1930, insofar as it affects 958.24 acres of public land withdrawn for Oil-Shale Deposits under the authority of the act of Congress approved June 25, 1910 (36 Stat. 847), as amended by the act of August 24, 1912 (57 Stat. 497), and to revoke Public Land Order 5739 dated July 22, 1980, in its entirety insofar as it affects 305 acres of public land withdrawn under the authority of Section 204 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2751; 43 U.S.C. 1714).

**FOR FURTHER INFORMATION CONTACT:** Detailed information concerning this action is available for review at the office of the Bureau of Land Management, Dillon Resource Area, 1005 Selway Drive, Dillon, Montana 59725-9431.

**SUPPLEMENTARY INFORMATION:** Upon publication of this notice in the Federal Register, the lands will be segregated from all other forms of appropriation under the public land laws, including

the general mining laws, except for lease or conveyance under the Recreation and Public Purposes Act and leasing under the mineral leasing laws. For a period of 45 days from the date of publication of this notice in the Federal Register, interested persons may submit comments regarding the classification of the lands, the proposed lease/conveyance, or the revocation of existing withdrawals to the District Manager, Butte District Office, 106 North Parkmont, Box 3388, Butte, Montana 59702-3388.

**CLASSIFICATION COMMENTS:** Interested parties may submit comments involving the suitability of the land for a State Park. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

**APPLICATION COMMENTS:** Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the land for a State Park.

Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice in the Federal Register.

Dated: March 12, 1996.

James R. Owings,

District Manager.
