

[Docket No. RP96-41-001]

Kern River Gas Transmission Company; Notice of Proposed Changes in FERC Gas Tariff

March 19, 1996.

Take notice that on March 14, 1996, Kern River Gas Transmission Company (Kern River) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets:

Second Revised Sheet No. 436
Second Revised Sheet No. 437

Kern River requests waiver of the 30-day notice requirement in Section 154.207 and proposes a March 15, 1996, effective date. Kern River states that good cause exists to support waiver because these sheets are submitted only to reflect a change of address Kern River's administrative offices from Houston, Texas to Salt Lake City, Utah, and to reflect that change in the choice of law provision of the Form of License Agreement from Texas to Utah for Kern River's RAPIDS II electronic bulletin board service. Kern River also states that it is reserving the right to move these tariff sheets into effect after the effective date so that it can place all the RAPIDS II tariff sheets into effect upon completion of the RAPIDS II test program.

Kern River also requests, to the extent necessary, waiver of 18 CFR 154.205 governing changes to suspended tariff sheets. Kern River states that waiver may be unnecessary because these revised tariff sheets propose to replace tariff sheets that were accepted and suspended by the Commission in a December 28, 1995, order, but the suspension period terminated on March 1, 1996.

Kern River states that copies of the filing were served upon Kern River's jurisdictional customers and all affected state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, D.C. 20426, in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. All protests filed with the Commission will be considered in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Copies of this filing are on file with the Commission and are

available for public inspection in the Public Reference Room.

Tennessee Gas Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

March 19, 1996.

Take notice that on March 14, 1996, Tennessee Gas Pipeline Company (Tennessee) tendered for filing as part of its FERC Gas Tariff, Fifth Revised Volume No. 1, the following tariff sheets, to become effective on April 13, 1996.

First Revised Sheet No. 156
Second Revised Sheet No. 304

Third Revised Sheet No. 337
 Second Revised Sheet No. 350
 Second Revised Sheet No. 351
 First Revised Sheet No. 351A
 First Revised Sheet No. 618
 First Revised Sheet No. 619
 First Revised Sheet No. 620
 Second Revised Sheet No. 621
 First Revised Sheet No. 621A

Tennessee states that it is filing the proposed changes to eliminate its current Umbrella Service because its Supply Aggregation (SA) service, which was implemented for all shippers as of January 1, 1996 in Docket No. RP95-206, provides all of the services heretofore provided by the Umbrella Service. Thus, Tennessee states that the Umbrella Service is duplicative of SA Service and is no longer necessary.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Project No. 1951-037]

Georgia Power Company; Notice of Availability of Final Environmental Assessment

March 19, 1996.

By letter to the Commission dated November 19, 1993, Georgia Power Company proposed to prepare and file an environmental assessment with their license application for the Sinclair Hydroelectric Project, as provided for by the Energy Policy Act of 1992.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the applicant prepared environmental assessment and application for major license for the existing Sinclair Hydroelectric Project, located on the Oconee River, Baldwin County, Georgia, and has prepared a Final Environmental

Assessment (FEA) for the project. In the FEA, the Commission's staff has analyzed the potential environmental impacts of the existing project and has concluded that approval of the project, with appropriate mitigation measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Branch, Room 2-A, of the Commission's offices at 888 First Street NE., Washington, DC 20426.
