SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts a series of monthly, quarterly, and annual surveys as part of the Current Industrial Reports (CIR) program. The CIR program includes both mandatory and voluntary surveys. Typically the monthly and quarterly surveys are conducted on a voluntary basis. Those companies that choose not to respond to the voluntary surveys are required to submit a mandatory annual counterpart. The annual counterpart collects annual data from those firms not participating in the more frequent collection. These surveys provide continuing and timely national statistical data on manufacturing. The results of these surveys are used extensively by individual firms, trade associations, and market analysts in planning or recommending marketing and legislative strategies. The CIR's deal mainly with the quantity and value of shipments of particular products and occasionally with data on production and inventories; unfilled orders, receipts, stocks and consumption; and comparative data on domestic production, exports, and imports of the products they cover.

Due to the large number of surveys in the CIR program, for clearance purposes we group the surveys into three Waves. The mandatory and voluntary surveys in each Wave are separately submitted. Thus, a total of six clearances cover all of the surveys in the CIR program. One Wave is submitted for reclearance each year. This year the Census Bureau plans to submit mandatory and voluntary surveys of Wave III for clearance. The surveys in Wave III are as follows:

Mandatory Surveys

MA23D—Gloves and Mittens
MA32E—Consumer, Scientific, Technical, and Industrial Glassware
MA35A—Farm Machinery and Lawn and Garden Equipment
MA35D—Construction Machinery
MA35F—Mining Machinery
MA35J—Selected Pollution Control Equipment
MA35M—Air Conditioning and Refrigeration Equipment
MQ22T—Broadwoven Fabrics (Gray)

Voluntary Surveys

M33D—Aluminum Ingot and Mill Products
MA20D—Confectionery
MA35U—Vending Machines

II. Method of Collection

The Census Bureau will use mail out/mail back survey forms to collect data. We ask respondents to return monthly report forms within 10 days, quarterly report forms within 15 days, and annual report forms within 30 days of the initial mailing. Telephone calls and/or letters encouraging participation will be mailed to respondents that have not responded by the designated time.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau is requesting clearance for the monthly collection of demographic data through the CPS. The current clearance expires December 31, 1996. Title 13, United States Code, Section 182 authorizes collection of selected demographic data in the CPS. In accordance with the Office of Management and Budget's (OMB) request, the Census Bureau and Bureau of Labor Statistics (BLS) divide the clearance request in order to reflect the joint sponsorship and funding of the CPS program. This proposal covers the collection of the CPS demographic information. BLS will submit a separate proposal to cover the collection of labor-force information in the CPS.

The demographic information provides a unique set of data on selected characteristics for the civilian noninstitutional population. Some of the demographic information we collect are: age, marital status, sex Armed

Forces status, education, race, origin, and family income. We use these data in conjunction with other data, particularly the monthly labor-force data, as well as periodic supplement data. We use these data also independently for internal analytic research and for evaluation of other surveys.

II. Method of Collection

The demographic information will be collected by both personal visit and telephone interviews in conjunction with the regular monthly CPS interviewing. All interviews are conducted using computer-assisted interviewing.

III. Data

OMB Number: 0607-0049.

Form Number: There are no forms.

We conduct all interviewing on computers.

Type of Review: Regular submission.

Affected Public: Households.

Estimated Number of Respondents: 48,000 per month.

Estimated Time Per Response: 1.58 minutes.

Estimated Total Annual Burden Hours: 15,168.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
