Notices

Federal Register

Vol. 61, No. 68

Monday, April 8, 1996

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Modification of Total Amount of Tariffrate Quota for Imported Raw Cane Sugar

AGENCY: Office of the Secretary, USDA. **ACTION:** Notice.

SUMMARY: This notice modifies the aggregate quantity of raw cane sugar that may be entered under subheading 1701.11.10 of the Harmonized Tariff Schedule of the United States (HTS) during fiscal year 1996 (FY 96). As modified, such aggregate quantity is 2,017,195 metric tons, raw value.

EFFECTIVE DATE: April 1, 1996.

ADDRESSES: Inquiries may be mailed or

ADDRESSES: Inquiries may be mailed or delivered to the Sugar Team Leader, Import Policy and Programs Division, Foreign Agricultural Service, Room 5531, South Building, U.S. Department of Agriculture, Washington, DC 20250–1000.

FOR FURTHER INFORMATION CONTACT: Stephen Hammond (Sugar Team

Leader); telephone: 202-720-1061. **SUPPLEMENTARY INFORMATION: Paragraph** (a)(i) of additional U.S. note 5 to chapter 17 of the HTS provides in part that * * the aggregate quantity of raw cane sugar entered, or withdrawn from warehouse for consumption, under subheading 1701.11.10, during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than, 1,117,195 metric tons, as shall be established by the Secretary of Agriculture (hereinafter referred to as "the Secretary"), and the aggregate quantity of sugars, syrups, and molasses entered, or withdrawn from warehouse for consumption, under subheadings 1701.12.10, 1701.91.10, 1701.99.10, 1702.90.10 and 2106.90.44, during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than 22,000 metric tons, as shall be

established by the Secretary." On August 3, 1995, the Secretary established the aggregate quantity of 1.117.195 metric tons, raw value, of raw cane sugar that may be entered under subheading 1701.11.10 of the HTS and the aggregate quantity of 22,000 metric tons (raw value basis) for certain sugars, syrups, and molasses that may be entered under subheadings 1701.12.10, 1701.91.10, 1701.99.10, 1702.90.10, and 2106.90.44 of the HTS during FY 96. (60 FR 42142) On November 9, 1995, the Secretary increased the aggregate quantity of raw cane sugar that may be entered under subheading 1701.11.10 to 1,417,195 metric tons. Again on January 17, 1996, the Secretary increased the aggregate quantity of raw cane sugar that may be entered under subheading 1701.11.10 to 1,817,195 metric tons.

Paragraph (a)(ii) of additional U.S. note 5 to chapter 17 of the HTS provides that "[w]henever the Secretary believes that domestic supplies of sugars may be inadequate to meet domestic demand at reasonable prices, the Secretary may modify any quantitative limitations which have previously been established * * *." The U.S. sugar production forecast for FY 96 released on March 12, 1995, in the World Agricultural Supply and Demand Estimates (WASDE) was reduced by 10,000 short tons raw value (STRV) to 7.5 million STRV from the WASDE production forecast released on January 16, 1996. The domestic wholesale refined sugar prices in the midwest market have been increasing since the tariff-rate quota increase was announced by the Secretary. During the first week of November 1995 the refined sugar price was 26.50 cents per pound. The refined sugar price during the first week of January 1996 was 28.75-29.25 cents per pound, which represents a 2.25 cent per pound increase. Today refined prices range from 29.50-31.50 cents per pound.

Paragraph (b)(i) of U.S. additional note 5 provides that "[t]he quota amounts established [by the Secretary] may be allocated among supplying countries and areas by the United States Trade Representative."

Notice

Notice is hereby given that I have determined, in accordance with paragraph (a)(ii) of additional U.S. note 5 to chapter 17 of the HTS, that an aggregate quantity of up to 2,017,195

metric tons, raw value, of raw cane sugar described in subheading 1701.11.10 of the HTS may be entered or withdrawn from warehouse for consumption during the period from October 1, 1995 through September 30, 1996.

This modified quota amount will be allocated among supplying countries and areas by the United States Trade Representative.

Signed at Washington, DC, on April 2, 1996.

Dan Glickman,

Secretary of Agriculture.

BILLING CODE 3410-10-M

Animal and Plant Health Inspection Service

[Docket No. 96-009-1]

Availability of Environmental Assessments and Findings of No Significant Impact

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that two environmental assessments and findings of no significant impact have been prepared by the Animal and Plant Health Inspection Service relative to the issuance of permits to allow the field testing of genetically engineered organisms. The environmental assessments provide a basis for our conclusion that the field testing of the genetically engineered organisms will not present a risk of introducing or disseminating a plant pest and will not have a significant impact on the quality of the human environment. Based on its findings of no significant impact, the Animal and Plant Health Inspection Service has determined that environmental impact statements need not be prepared.

ADDRESSES: Copies of the environmental assessments and findings of no significant impact are available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect those documents are requested

to call ahead on (202) 690–2817 to facilitate entry into the reading room.

FOR FURTHER INFORMATION CONTACT: Dr. Arnold Foudin, Deputy Director, Biotechnology Permits, BBEP, APHIS, Suite 5B05, 4700 River Road Unit 147, Riverdale, MD 20737–1237; (301) 734–7612. For copies of the environmental assessments and findings of no significant impact, contact Mr. Clayton Givens at (301) 734–7612; e-mail: cgivens@aphis.usda.gov. Please refer to the permit numbers listed below when ordering documents.

SUPPLEMENTARY INFORMATION: The regulations in 7 CFR part 340 (referred to below as the regulations) regulate the introduction (importation, interstate movement, and release into the

environment) of genetically engineered organisms and products that are plant pests or that there is reason to believe are plant pests (regulated articles). A permit must be obtained or a notification acknowledged before a regulated article may be introduced into the United States. The regulations set forth the permit application requirements and the notification procedures for the importation, interstate movement, and release into the environment of a regulated article.

In the course of reviewing each permit application, APHIS assessed the impact on the environment that releasing the organisms under the conditions described in the permit application would have. APHIS has issued permits for the field testing of the organisms

listed below after concluding that the organisms will not present a risk of plant pest introduction or dissemination and will not have a significant impact on the quality of the human environment. The environmental assessments and findings of no significant impact, which are based on data submitted by the applicants and on a review of other relevant literature, provide the public with documentation of APHIS' review and analysis of the environmental impacts associated with conducting the field tests.

Environmental assessments and findings of no significant impact have been prepared by APHIS relative to the issuance of permits to allow the field testing of the following genetically engineered organisms:

Permit No.	Permittee	Date issued	Organisms	Field test lo- cation
95–326–02	University of Florida	2–23–96	Metaseiulus occidentalis, a predatory mite, genetically engineered to express a lacZ marker.	Florida.
95–324–01	DNA Plant Tech- nology Corporation.	2–29–96	Vitis vinifera, grape plants genetically engineered to express tolerance to sulfonylurea herbicides.	California.

The environmental assessments and findings of no significant impact have been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321 et seq.), (2) Regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372; 60 FR 6000–6005, February 1, 1995).

Done in Washington, DC, this 2nd day of April 1996.

Lonnie J. King,

Administrator, Animal and Plant Health Inspection Service.

Cooperative State Research, Education, and Extension Service

Committee of Nine; Meeting

In accordance with the Federal Advisory Committee Act of October 6, 1972, (Pub. L. 92–463, 86 Stat. 770– 776), the Cooperative State Research, Education, and Extension Service announces the following meeting:

Name: Committee of Nine. Date: May 15, 1996; May 16, 1996. Time: 8:30 a.m.-5 p.m.; 8:30 a.m.-Noon. Place: USDA, CSREES, 14th & Independence Avenue, SW, Room 3854 South Building, Washington, DC 20250.

Type of Meeting: Open to the public. Persons may participate in the meeting as time and space permit.

Comments: The public may file written comments before or after the meeting with the contact person listed below.

Purpose: To evaluate and recommend proposals for cooperative research on problems that concern agriculture in two or more States, and to make recommendations for allocation of regional research funds appropriated by Congress under the Hatch Act for research at the state agricultural experiment stations.

Contact Person for Agenda and More Information: Dr. George E. Cooper, Executive Secretary, U.S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 14th and Independence Avenue SW., Room 3851, South Building, Washington, DC 20250, Telephone: 202–720– 4088.

Done at Washington, DC, this 25th day of March 1996.

Bob H. Robinson,

Administrator, Cooperative State Research, Education, and Extension Service.
