SUPPLEMENTARY INFORMATION:

Title: Food Security Supplement to the Current Population Survey.

OMB Number: Not yet assigned.

Form Number: None.

Expiration Date: N/A.

Type of Request: New Collection of Information.

Abstract: The U.S. Bureau of the Census will supplement the September, 1996 Current Population Survey with questions regarding household food shopping, food sufficiency, coping mechanisms and food scarcity, and concern about food sufficiency. This supplement was also appended to the CPS in April, 1995. These data will be used to develop a scale of food security reflecting a range from food secure households through households experiencing severe food insecurity. Ultimately, this scale will be used to identify the prevalence of poverty-linked food insecurity and hunger experienced in the United States. The purpose of this project is to provide a consistent measure of the extent and severity of food insecurity that will aid in policy decision making. The supplemental survey instrument has been developed in conjunction with food security experts nationwide as well as survey method experts within the Census Bureau. This supplemental information will be collected by both personal visit and telephone interviews in conjunction with the regular monthly CPS interviewing. All interviews are conducted using computers.

Affected Public: Individuals or households.

Estimated Number of Respondents: 58,000.

Estimated Time per Response: 9 minutes.

Estimated Total Annual Burden: 8,700 hours.

Dated: April 4, 1996.

Administrator, Food and Consumer Service.

Fresh Kiwifruit From New Zealand; Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

ACTION: Notice of Preliminary Results of
Antidumping Duty Administrative
Review.

SUMMARY: In response to a request by the New Zealand Kiwifruit Marketing Board (NZKMB), the respondent in this case, the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on fresh kiwifruit from New Zealand. The review covers one exporter of the subject merchandise to the United States for the period June 1, 1994, through May 31, 1995.

We preliminarily determine that sales have been made below the normal value (NV). If these preliminary results are

adopted in our final results of administrative review, we will instruct the U.S. Customs Service to assess antidumping duties equal to the difference between the United States price (USP) and the NV. Interested parties are invited to comment on these preliminary results. Parties who submit argument in this proceeding are requested to submit with the argument (1) a statement of the issue, and (2) a brief summary of the argument. (No longer than five pages, including footnotes.)

EFFECTIVE DATE: April 10, 1996.

FOR FURTHER INFORMATION CONTACT: Paul Stolz or Thomas F. Futtner, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4474 or 482-3814, respectively.

APPLICABLE STATUTE: Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act) are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Rounds Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).

SUPPLEMENTARY INFORMATION:

Background

On June 2, 1992, the Department published the antidumping duty order on fresh kiwifruit from New Zealand (57 FR 23203). On June 6, 1995, the Department published a notice of "Opportunity to Request Administrative Review" of this antidumping duty order for the period June 1, 1994, through May 31, 1995 (60 FR 29821). We received a timely request for review by the respondent, NZKMB. On July 14, 1995, the Department initiated a review of NZKMB (60 FR 36260). The period of review (POR) is June 1, 1994 through May 31, 1995.

Scope of the Review

The product covered by this review is fresh kiwifruit. Processed kiwifruit, including fruit jams, jellies, pastes, purees, mineral waters, or juices made from or containing kiwifruit, are not covered under the scope of this review. The subject merchandise is currently classifiable under subheading 0810.90.20.60 of the Harmonized Tariff Schedule (HTS). Although the HTS number is provided for convenience and

customs purposes, our written description of the scope of this order is dispositive.

Constructed Export Price

The Department treated certain sales by the respondent as constructed export prices (CEP) sales, as provided in section 772 (b) of the Tariff Act. Sales to the United States by NZKMB were made to the first unaffiliated party in the United States after importation, and hence warranted CEP methodology.

We calculated CEP based on packed F.O.B. (ex-New Zealand coolstore), and packed F.O.B., freight-prepaid prices. We made deductions, where appropriate, for New Zealand inland freight (coolstore to port), loading charges in New Zealand, ocean freight, basic marine insurance, charter insurance, U.S. import duties, U.S. brokerage and handling, U.S. inland freight (decreased to account for prepaid freight where applicable), and price discounts (*i.e.*, advertising allowances, special advertising allowances, market adjustment discounts, advertising rebates which actually constituted discounts, and discounts for quality problems). In accordance with sections 772(d) (1) and (2) of the Tariff Act, we made additional deductions, where appropriate, for agent commissions, broker commissions, credit, direct advertising, and indirect selling expenses. Indirect selling expenses included inventory carrying costs, repacking, U.S. primary and U.S. satellite coolstore charges, New Zealand and U.S. instore insurance, fire insurance, product liability and tamper insurance, earthquake insurance, indirect advertising, quality control expenses, miscellaneous selling-agent-related charges, other U.S.-incurred indirect expenses, and other New Zealand-incurred indirect selling expenses associated with selling in the United States. Furthermore, pursuant to section 772(d)(3), the price was further reduced by an amount for profit to arrive at the CEP. Finally, we increased the U.S. price to account for post sale price adjustments not reflected in the gross price.

Normal Value

In order to determine whether there were sufficient sales of kiwifruit in the home market to serve as a viable basis for calculating NV, we compared the volume of home market sales of kiwifruit by NZKMB to its volume of kiwifruit sales to the United States, in accordance with section 773(a)(1)(B) of the Act. The petitioner has claimed that the home market should not be considered viable. However, since
