## DEPARTMENT OF DEFENSE

### Department of the Air Force

#### Notice of Intent To Prepare Environmental Assessment for the Realignment, McChord AFB, WA

The United States Air Force (USAF) will prepare an Environmental Assessment (EA) with the potential for an Environmental Impact Statement to assess the potential environmental impacts of the basing 48 C-17 aircraft to McChord AFB, south of Tacoma, Washington. The beddown of the C-17 aircraft at McChord is necessary to best support the Nation's military strategy, and airlift needs. The proposed action would fulfill wartime requirements and peacetime training needs while providing a replacement for the retiring C-141 aircraft.

The proposed realignment would locate C-17 aircraft, associated personnel, units, and equipment to McChord and entails approximately \$120M in construction on the base. Under the No Action alternative, no aircraft would be based at McChord since the C-141 aircraft are being retired as part of a separate action.

The Air Force will conduct a public meeting to ensure that the analysis addresses the appropriate scope of issues and depth of analysis for the proposed action. Public comments will be considered in the preparation of the EA. Notice of the date, time, and location of the meeting will be made available to public officials, the community, and the news media at a later date. Written comments on the scope of alternatives and impacts will also be accepted and considered.

To ensure that the Air Force will have sufficient time to consider all appropriate comments, please forward comments to the address listed below by June 7, 1996. The Air Force will accept appropriate input any time throughout this process. If the Air Force were to decide to propose an EIS, this process may be substituted for the scoping process that would normally precede an EIS.

Please direct any written comments of requests for further information concerning this action to: Mr. Michael Grenko, 62 SPTG/CEV, 555 A. Street, McChord AFB, WA 98438-1325, (206) 984-3913.

#### Notice of Intent To Prepare an Environmental Impact Statement for Expansion of German Air Force Aircraft Operations, Holloman AFB, NM

The United States Air Force will prepare an Environmental Impact Statement (EIS) to analyze the potential environmental impacts of operating additional German Air Force (GAF) Tornado aircraft at Holloman AFB. The proposed action would relocate 30 Tornado aircraft, equipment, and approximately 500 support personnel to Holloman. The proposed action would also include the construction of a new tactical target range within the existing impact area of the McCreagor Army Range, New Mexico, construction of additional support facilities at Holloman AFB, increased use of Military Training Routes (MTRs) and Military Operations Areas (MOAs). The United States Army and the Bureau of Land Management will be cooperating agencies in this EIS.

No live ordnance would be used on the proposed new range. The proposed range would provide an air-to-ground weapons delivery site for air crews training in low level navigation, terrain following radar operations, and low level combat tactics. Aircraft would access the proposed range using existing MTRs. Alternatives under consideration include (1) Beddown of Tornado aircraft at Holloman but no air-to-ground range and (2) The No Action alternative.

The Air Force will conduct a series of scoping meetings to solicit public input concerning the proposed action and alternatives. Notice of the date, time and location of the meeting will be made available to public officials, the community, and the news media at a later date. For those unable to attend any of the scheduled scoping meetings, written comments will be accepted by the Air Force at the address below through July 1, 1996. The Air Force will accept appropriate comments at any time during the environmental analysis process.

Please direct any written comments or requests for further information to: Ms. Sheryl Parker, HQ ACC/CEVA, Langley AFB, VA 23665-2769, (804) 764-3328.
