

## 6. New England Power Pool

[Docket No. ER96-1651-000]

Take notice that on April 26, 1996, the New England Power Pool Executive Committee filed a signature page to the NEPOOL Agreement dated September 1, 1971, as amended, signed by KCS Power Marketing, Inc. (KCS). The New England Power Pool Agreement, as amended, has been designated NEPOOL FPC No. 2.

The Executive Committee states that acceptance of the signature page would permit KCS to join the over 90 Participants already in the Pool. NEPOOL further states that the filed signature page does not change the NEPOOL Agreement in any manner, other than to make KCS a Participant in the Pool. NEPOOL requests an effective date of June 1, 1996 for commencement of participation in the Pool by KCS.

*Comment date:* May 15, 1996, in accordance with Standard Paragraph E at the end of this notice.

**[Project No. 10228-007 Kentucky]**

**Cannelton Hydroelectric Project LP; Notice of Availability of Draft Environmental Assessment**

April 30, 1996.

A draft environmental assessment (DEA) is available for public review. The DEA is for an application to amend the Cannelton Hydroelectric Project. The licensee proposes to eliminate the powerhouse by adding 240 small generating units that would be located upstream of the tainter gates within the dam's tainter gate bays and to change the approved transmission line. The DEA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment. The Cannelton Hydroelectric Project is located on the Ohio River in Hancock County, Kentucky.

The DEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the DEA can be viewed in the Public Reference Branch, Room 2A, of the Commission's offices at 888 First Street NE., Washington, D.C. 20426.

Please submit any comments within 40 days from the date of this notice. Any comments, conclusions, or recommendations that draw upon studies, reports, or other working papers of substance should be supported by appropriate documentation.

Comments should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, D.C. 20426. Please affix Project No. 10228-007 to all comments. For further information, please contact the project manager, Ms. Rebecca Martin, at (202) 219-2650.

BILLING CODE 6717-01-M

**[Project No. 1927-008]**

**PacifiCorp; Notice of Intent To Prepare an Environmental Impact Statement (EIS), Conduct Public Scoping Meetings and a Site Visit**

April 30, 1996.

The Federal Energy Regulatory Commission (FERC) is reviewing an application to relicense and continue operating the North Umpqua Hydroelectric Project, FERC Project No. 1927-008. The project is on the North Umpqua River in Douglas County, Oregon. This project would primarily involve federal lands managed by the Umpqua National Forest, but also involves some lands managed by the Bureau of Land Management (BLM).

Relicensing this project could constitute a major federal action significantly affecting the quality of the human environment. Therefore, the FERC intends to prepare an Environmental Impact Statement (EIS) on the project in accordance with the National Environmental Policy Act of 1969, and the Commission's regulations. The EIS will objectively consider both site-specific and cumulative environmental impacts of the project and responsible alternatives, and will include an economic, financial, and engineering analysis. The Umpqua National Forest will be a cooperating agency on the EIS.

A Draft EIS (DEIS) will be circulated for review and comment by all interested parties, and FERC will hold a public meeting on the DEIS. FERC staff will consider and respond to comments received on the DEIS in the Final EIS. The FERC staff's conclusions and recommendations will then be presented for the consideration of the Commission in reaching its final licensing decision. The Umpqua National Forest will use the information in the EIS to make its decision on issuing mandatory section 4(e) conditions for the project under the Federal Power Act and their section 7(a) determination under the Wild and Scenic Rivers Act.

Scoping: Concerned citizens, special interest groups, local governments, state and federal agencies, and any other interested parties are invited to comment on the scope of the environmental issues that should be analyzed in the EIS. Scoping will help ensure that all significant issues related to this proposal are addressed in the EIS.

The FERC will conduct two scoping meetings on June 6, 1996. A scoping meeting oriented towards the agencies will begin at 9:00 am on June 6th at the

Umpqua National Forest office located at 2900 NW Stewart Parkway, Roseburg, Oregon. Those wishing to attend this meeting should contact Jim Wieman, District Ranger at (503) 942-5591 by May 31st.

A scoping meeting oriented towards the public will begin at 7:00 pm on June 6th at the Douglas County Fairground Complex Community Building located at 2110 S.W. Frear Street, Roseburg, Oregon. (The public and the agencies may attend either or both meetings, however.)

Objectives: At the scoping meetings, FERC staff will (1) identify preliminary environmental issues related to the proposed project; (2) attempt to identify preliminary resource issues that are not important and do not require detailed analysis; (3) identify reasonable alternatives to be addressed in the EIS; (4) solicit from the meeting participants all available information, especially quantified data, on the resource issues; and (5) encourage statements from experts and the public on issues that should be analyzed in the EIS, including points of views in opposition to, or in support of, the staff's preliminary views.

Procedures: The meetings will be recorded by a court reporter and all statements (oral and written) will become a part of the official record of the Commission proceedings for the North Umpqua Project relicense. Individuals presenting statements at the meetings will be asked to clearly identify themselves for the record.

To help focus discussions at the scoping meeting, the FERC will mail a Scoping Document, outlining subject areas to be addressed in the EIS, to agencies and interested individuals on the project mailing list. Copies of the scoping document will also be available at the scoping meetings.

Persons choosing not to speak at the meetings, but who have views on the issues or information relevant to the issues, may submit written statements for inclusion in the public record at the meetings. In addition, written scoping comments may be filed with the Office of the Secretary, Dockets Room 1A, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426 until July 12, 1996. All written correspondence should clearly show the following caption on the first page: North Umpqua Hydroelectric Project, FERC No. 1927-008.

Intervenors—those on the Commission's service list for this proceeding (parties)—are reminded of the Commission's Rules of Practice and Procedures, requiring parties filing documents with the Commission, to serve a copy of the document on each
