

**ACTION:** Availability of final environmental impact statement for the proposed Beaver Basin Rim Road at Pictured Rocks National Lakeshore, Alger County, Michigan.

**SUMMARY:** Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, the National Park Service (NPS) announces the availability of a final environmental impact statement (FEIS) for the proposed Beaver Basin Rim Road in Pictured Rocks National Lakeshore. The draft environmental impact statement for the proposal was on 60-day public review from January 20 to March 20, 1995.

The NPS proposes to construct a paved road in Pictured Rocks National Lakeshore along the Beaver Basin Rim. The action is being proposed in response to a mandate by Congress in section 6 of the Act of October 15, 1966, 16 U.S.C. 460s-5(b)(1), establishing Pictured Rocks National Lakeshore, directing the development of a scenic shoreline drive. The proposed action is also consistent with and would implement the management directions of the 1981 general management plan for the national lakeshore. The FEIS was prepared by the NPS.

The NPS's preferred alternative for the Beaver Basin Rim Road is identified in the FEIS as Alternative B: Shoreline Zone Alignment. Under the preferred alternative, a 13-mile long paved road would be constructed in the shoreline zone of Pictured Rocks National Lakeshore. The proposed road would connect on both ends with Alger County Road H-58. Two spur roads would be constructed off the main road to two overlooks. These overlooks would provide views of Beaver Basin, Beaver Lake, Grand Portal Point, the Sevenmile Creek area, and Lake Superior. Two other alternatives are also considered: The no action alternative, and an alternative under which a new paved road would be constructed within the inland buffer zone of the national lakeshore.

**DATES:** The 30-day no action period for review of the FEIS will end on March 2, 1996. A record of decision will follow the no action period.
