**[Docket No. PR96-7-000]**

**Transok, Inc.; Notice of Petition for  
Rate Approval**

May 17, 1996.

Take notice that on May 1, 1996, Transok, Inc. (Transok), filed pursuant to section 284.123(b)(2) of the Commission's regulations, a petition for rate approval requesting that the Commission approve as fair and equitable rates for interruptible transportation services performed under section 311(a)(2) of the Natural Gas Policy Act of 1978 (NGPA) on Transok's Oklahoma Anadarko System.

Transok proposes a new system-wide maximum rate for interruptible service of \$0.2541 per MMBtu delivered. Transok will also charge each shipper the shipper's pro rate share of actual compressor fuel plus 0.5 percent per volumes delivered for system losses. Transok proposes an effective date of May 1, 1996.

Transok states that it is an intrastate pipeline within the meaning of section 2(16) of the NGPA and it owns and operates two intrastate pipeline systems in the State of Oklahoma (the Anadarko System and the Traditional System), and one system in the State of Louisiana. Transok here proposes rates for the Anadarko System only.

Pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the filing date, the rate will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150-day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 in accordance with sections 385.211 and 385.214 of the Commission's Rules of Practice and Procedure. All motions must be filed with the Secretary of the Commission on or before June 3, 1996. The petition for rate approval is on file with the Commission and is available for public inspection.
