**ASSASSINATION RECORDS REVIEW BOARD**

**Notice of Formal Determinations and Corrections**

**AGENCY:** Assassination Records Review Board.

**SUMMARY:** The Assassination Records Review Board (Review Board) met in a closed meeting on January 5, 1996, and made formal determinations on the release of records under the President John F. Kennedy Assassination Records Collection Act of 1992 (JFK Act). By issuing this notice, the Review Board complies with the section of the JFK Act that requires the Review Board to publish the results of its decisions on a document-by-document basis in the Federal Register within 14 days of the date of the decision. (The date has been extended by six days due to weather related shutdowns of the Federal government.) This notice document also contains two minor corrections from previous notices.

**FOR FURTHER INFORMATION CONTACT:** T. Jeremy Gunn, General Counsel and Associate Director for Research and Analysis, Assassination Records Review Board, Second Floor, 600 E Street NW, Washington, DC 20530, (202) 724-0088, fax (202) 724-0457.

**SUPPLEMENTARY INFORMATION:** This notice complies with the requirements of the President John F. Kennedy Assassination Records Collection Act of 1992, 44 U.S.C. 2107.9(c)(4)(A) (1992). On January 5, 1996, the Review Board made formal determinations on records it reviewed under the JFK Act.

These determinations are listed below. The assassination records are identified by the record identification number assigned in the President John F. Kennedy Assassination Records Collection database maintained by the National Archives. For each document, the number of releases of previously redacted information is noted as well as the number of sustained postponements.

### Corrections

On December 12 and 13, 1996, the Review Board made formal determinations that were published in the Tuesday, January 2, 1996, Federal Register (FR Doc. 95-31560, 61 FR 48), reflecting those determinations. For that notice make the following corrections:

On page 51, in the second, third, and fourth columns of the HSCA documents table, make the following corrections:

Record No.	Previously published	Corrected information
180-10087-10362	3,0, Open in Full, n/a.	2,1 Postponed in Part, 2017.

In its implementation of the JFK Act, the Federal Bureau of Investigation (FBI) inadvertently assigned two record identification numbers—124-10087-10334 and 124-10027-10011—to the

same assassination record. The Review Board's final determinations regarding this assassination record were published in the Monday, December 4, 1995, Federal Register (see FR Doc. 95-29839, 60 FR 62066) under record identification number 124-10087-10334. The FBI subsequently notified the Review Board of the prior inadvertent assignment of two record identification numbers to that assassination record, and of the FBI's

decision to use 124-10027-10011 as the sole record identification number for that assassination record for further processing under the JFK Act. Accordingly, the assassination record in question is being processed and released to the public, pursuant to the Review Board's determinations, as record identification number 124-10027-10011.

Dated: January 25, 1996.

David G. Marwell,

*Executive Director.*

#### **SUPPLEMENTARY INFORMATION:**

##### I. Abstract

The Census Bureau is the preeminent collector and provider of timely, relevant and quality data about the people and economy of the United States. Economic data are the Census Bureau's primary program commitment

during nondecennial census years. The economic census, conducted under authority of Title 13 USC, is the primary source of facts about the structure and functioning of the Nation's economy and features unique industry and geographic detail. Economic census statistics serve as part of the framework for the national accounts and provide essential information for government, business and the general public. The 1997 Economic Census will cover virtually every sector of the U. S. economy including more than .5 million wholesale establishments, more than 1.1 million retail establishments, and more than .5 million food services, drinking places, and accommodations establishments.

##### II. Method of Collection

The wholesale trade, retail trade, and food services, drinking places, and accommodations sectors of the economic census will select establishments for their mail canvasses from a frame given by the Census Bureau's Standard Statistical Establishment List. To be eligible for selection, an establishment will be required to satisfy the following conditions: (i) it must be classified in the wholesale trade, retail trade, or food services, drinking places, and accommodations sector; (ii) it must be an active operating establishment of a multi-establishment firm, or it must be a single-establishment firm with payroll; and (iii) it must be located in one of the 50 states or the District of Columbia. Mail selection procedures will distinguish the following groups of establishments:

##### *A. Establishments of Multi-Establishment Firms*

Selection procedures will assign all active wholesale, retail, food services, drinking places, and accommodations operating establishments of multi-establishment firms to the mail component of the potential respondent universe. We estimate that the census mail canvass for 1997 will include approximately 155,000 wholesale multi-establishment firms, 422,000 retail multi-establishment firms, and 151,000 food services, drinking places, and accommodations multi-establishment firms.

##### *B. Single-Establishment Firms With Payroll*

As an initial step in the selection process, we will conduct a study of the potential respondent universe for wholesale trade, retail trade, and food services, drinking places, and accommodations. Wholesale trade

agents, brokers, and commission merchants will be exempted from this process and will all receive a standard form. The study of potential respondents will produce a set of industry-specific payroll cutoffs that we will use to distinguish large versus small single-establishment firms within each industry or kind of business. This payroll size distinction will affect selection as follows:

##### 1. Large Single-Establishment Firms

Selection procedures will assign large single-establishment firms having annualized payroll (from Federal administrative records) that equals or exceeds the cutoff for their industry to the mail component of the potential respondent universe. We estimate that the census mail canvass for 1997 will include approximately 229,000 merchant wholesale firms, 238,000 retail firms, and 165,000 food services, drinking places, and accommodations firms in this category.

##### 2. Small Single-Establishment Firms

Selection procedures will assign a sample of small single-establishment firms having annualized payroll below the cutoff for their industry to the mail component of the potential respondent universe. Sampling strata and corresponding probabilities of selection will be determined by a study of the potential respondent universe conducted shortly before mail selection operations begin. We estimate that the census mail canvass for 1997 will include approximately 11,000 merchant wholesale firms, 78,000 retail firms, and 17,000 food services, drinking places, and accommodations firms in this category.

Small single-establishment merchant wholesale firms not selected in the foregoing sample will receive a wholesale short form, which will collect basic statistics and other essential information that is not available from administrative records. We estimate that the census mail canvass for 1997 will include approximately 105,000 merchant wholesale firms in this category.

All single-establishment agents, brokers, and commission merchant firms will receive a wholesale standard form. We estimate that the census mail canvass will include approximately 45,000 firms in this category.

All remaining single-establishment firms with payroll will be represented in the census by data from Federal administrative records. Generally, we will not include these small employers in the census mail canvass. However, administrative records sometimes have
