

5. File Symbol: 264-LAU. Applicant: Rhone-Poulenc AG Company, P.O. Box 12014, T.W. Alexander Drive, Research Triangle Park, NC 27709. Product name: Finish. Insecticide. Active ingredients: Ethapon (2-chloroethyl)phosphonic acid at 35.1 percent and cyclanilide 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid at 4.3 percent. Proposed classification/Use: None. For use as a harvest aid on cotton. (PM 22)

6. File Symbol: 464-LAL. Applicant: Rhone-Poulenc Co. Product name: Cyclanilide Technical. Insecticide. Active ingredient: Cyclanilide 1-(2,4-dichlorophenylaminocarbonyl)-cyclopropane carboxylic acid at 98.5 percent. Proposed classification/Use: None. For manufacturing use only. (PM 22)

Notice of approval or denial of an application to register a pesticide product will be announced in the Federal Register. The procedure for requesting data will be given in the Federal Register if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

A record has been established for this notice under docket number [OPP-30412] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in

writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operations Division at the address provided from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. It is suggested that persons interested in reviewing the application file, telephone this office at (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

Aspergillus flavus AF 36; Establishment of Temporary Exemption from the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established a temporary exemption from the requirement of a tolerance for residues of the microbial pesticide *Aspergillus flavus* AF 36 in or on the raw agricultural commodity cotton.

DATES: This temporary exemption from the requirement of a tolerance expires May 20, 1999.

FOR FURTHER INFORMATION CONTACT: By mail: Shanaz Bacchus, Biopesticides and Pollution Prevention Division (7501W) Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Fifth Floor, Crystal Station 1, 2800 Crystal Drive, Arlington, VA, (703) 308-8097; e-mail: bacchus.shanaz@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Inter-Regional Research Project No. 4, New Jersey Agricultural Experiment, Rutgers Cook College, P.O. Box 231, New Brunswick, NJ 08903, has requested in pesticide petition PP 5E4575, the establishment of an exemption from the requirement of a tolerance for residues

of the microbial pesticide *Aspergillus flavus* AF 36 in or on the raw agricultural commodity cotton. This temporary exemption from the requirement of a tolerance will permit the marketing of the above raw agricultural commodity when treated in accordance with the provisions of experimental use permit 69224-EUP-1, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that the exemption from the requirement of a tolerance will protect the public health. Therefore, the temporary exemption from the requirement of a tolerance has been established on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.
2. Inter-Regional Research Project No. 4, must immediately notify the EPA of any findings from the experimental use permit that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary exemption from the requirement of a tolerance expires May 20, 1999. Residues remaining in or on the raw agricultural commodity after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary exemption from the requirement of a tolerance. This temporary exemption from the requirement of a tolerance may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial

number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

Authority: 21 U.S.C. 346a(j).

Trichodex; Establishment of Temporary Exemption from the Requirement of Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established temporary exemptions from the requirement of tolerances for residues of the microbial pesticide *Trichoderma harzianum* isolate T-39 and microbial antifungal agent ABG-8007 in or on certain raw agricultural commodities.

DATES: These temporary exemptions from the requirement of tolerances expire May 9, 1998.

FOR FURTHER INFORMATION CONTACT: By mail: Shanaz Bacchus, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Fifth Floor, Crystal Station 1, 2800 Crystal Drive, Arlington, VA (703) 308-8097; e-mail: bacchus.shanaz@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Makhteshim-Agan of North America Inc., 551 Fifth Ave., Suite 1100, New York, NY 10176, has requested in pesticide petitions (PP) 6G4622 the establishment of exemptions from the requirement of tolerances for residues of the microbial pesticide *Trichoderma harzianum* isolate T-39 when used as an antifungal agent in or on the raw agricultural commodities table grape, wine grape and strawberry. The microbial antifungal agent is also referred to as ABG-8007 and contains dried fermentation solids resulting from

fermentation of *Trichoderma harzianum* isolate T-39, containing T-39 fungus propagules as either conidia or mycelia.

These temporary exemptions from the requirement of tolerances will permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of experimental use permit 11678-EUP-1, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that exemptions from the requirement of tolerances will protect the public health. Therefore, the temporary exemptions from the requirement of tolerances have been established on the condition that the pesticides be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredients to be used must not exceed the quantity authorized by the experimental use permit.

2. Makhteshim-Agan of North America Inc., must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These temporary exemptions from the requirement of tolerances expire May 9, 1998. Residues remaining in or on all raw agricultural commodities after this expiration date will not be considered actionable if the pesticides are legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary exemptions from the requirement of tolerances. These temporary exemptions from the requirement of tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. Abbott Laboratories; Establishment of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established temporary tolerances for residues of the plant growth regulator, (*S*)-*trans*-2-Amino-4-(2-aminoethoxy)-3-butenic acid hydrochloride in or on certain raw agricultural commodities. These temporary tolerances were requested by Abbott Laboratories.

DATES: These temporary tolerances expire June 1, 1997.

FOR FURTHER INFORMATION CONTACT: By mail: Denise Greenway, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Fifth Floor, Crystal Station 1, 2800 Crystal Drive, Arlington, VA, (703) 308-8263; e-mail: greenway.denise@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Abbott Laboratories, Dept. 28R, Bldg. A1, 1401 Sheridan Rd., North Chicago, IL 60064-4000, has requested in pesticide petition (PP) 6G4684, the establishment of temporary tolerances for residues of the plant growth regulator, (*S*)-*trans*-2-Amino-4-(2-aminoethoxy)-3-butenic acid hydrochloride in or on the raw agricultural commodities apples and pears at 0.075 parts per million (ppm). These temporary tolerances will permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of the experimental use permit 275-EUP-80, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide
