#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The BE-20 Benchmark Survey of Selected Services Transactions with Unaffiliated Foreign Persons will obtain universe data on transactions in selected services between U.S. and unaffiliated foreign persons in 1996. The data from the survey will provide benchmarks for deriving current universe estimates of

such transactions from sample data collected in subsequent years. The information obtained from the survey is critically needed for tracking international transactions in new, growing, and volatile categories of services. The data are necessary for compiling monthly estimates of U.S. international transactions in goods and services, the U.S. balance of payments, and the national income and product accounts. The data also will support U.S. trade policy initiatives, including trade negotiations.

To close gaps in existing coverage of international services transactions, the Bureau of Economic Analysis (BEA) is considering adding several categories of services not included in the previous (1991) BE-20 survey. Specifically, BEA is considering adding coverage of purchases (payments) and sales (receipts) of commissions by unaffiliated sales agents, purchases (but not sales) of financial services, and sales (but not purchases) of merchanting services. BEA is also considering adding a broad category for purchases and sales of "other" business, professional, and technical services; this category would likely cover language-translation services, security services, collection services, actuarial services, salvage services, certain waste cleanup services, and, possibly, other specified services.

## II. Method of Collection

The survey will be sent to potential respondents in January 1997, and responses are due on March 31, 1997. All U.S. persons who, during 1996, had more than \$500,000 of purchases from, or sales to, unaffiliated foreign persons in a covered service must report data. U.S. persons who receive a copy of the survey and who had purchases and sales transactions in a covered service with unaffiliated foreign persons of \$500,000 or less may voluntarily report the data, or they must file an exemption claim.

## III. Data

*OMB Number:* 0608-0058.

*Form Number:* BE-20.

*Type of Review:* Regular submission.

*Affected Public:* Businesses, government agencies, or others engaging

in international transactions in covered services.

*Estimated Number of Respondents:* 1,600.

*Estimated Total Annual Cost:* \$576,000 (based on an estimated reporting burden of 19,200 hours and an estimated hourly cost of \$30).

## IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
