Notice of Lodging of Consent Decree Pursuant to Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)

Notice is hereby given that a proposed Consent Decree in *United States v. Tremont Landfill Company, et al.*, Civil Action No. C-3-96-221 has been lodged on June 17, 1996 with the United States District Court for the Southern District of Ohio, Western Division. The proposed Consent Decree concerns the Sanitary Landfill Superfund Site (the "Site") located at 1855 Cardington Road, Moraine, Ohio. The Site was operated by the Sanitary Landfill Company, the predecessor to defendant Tremont Landfill Company ("Tremont"), and is owned by two trusts. The Site was active from 1971 to 1980. During that time period, the landfill accepted municipal, commercial, and industrial waste—both liquids and solids—from local industries and municipalities. These wastes included sludges, paints, paint by-products, asbestos and municipal incinerator wastes. The Site was added to the National Priorities List on June 10, 1986.

The Consent Decree requires sixteen Settling Defendants, who together represent approximately 49% of the waste at the Site by volume, to perform the estimated \$8 million remedy. The remedial action includes a low permeability cap; gas collection and treatment; surface run-off controls; long-term groundwater monitoring; institutional controls; and a supplemental site investigation ("SSI") for groundwater. The settlers also agreed to prepay \$60,000 of EPA's future oversight costs within 30 days of entry of the decree and to pay 50% of the United States' estimated additional oversight costs. In addition, the decree includes the settlement of sixty-three "Premium Settling Defendants," who contributed less than .5% of the total waste at the Site and elected to pay a premium to the Settling Defendants to obtain a *de minimis* settlement.

The Department of Justice will receive comments concerning the proposed Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney

General, Environment and Natural Resources Division, U.S. Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, D.C. 20044, and should refer to *United States v. Tremont Landfill Company, et al.*, D.O.J. Number 90-11-2-1113. Commenters may request an opportunity for a public meeting in the affected area, in accordance with Section 7003(d) of RCRA.

The proposed Consent Decree may be examined at any of the following offices: (1) the Office of the United States Attorney for the Southern District of Ohio, Western Division, 602 Federal Building, 200 West Second Street, Dayton, Ohio 45402, (513) 225-2910; (2) the U.S. Environmental Protection Agency, Region 5, 77 W. Copies of the proposed Decree may be obtained by mail from the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005. For a copy of the Consent Decree, please enclose a check for \$42.25 (\$.25 per page reproduction charge) for the consent decree (including 81 Settling Defendant signature pages), or \$151.50 for the consent decree plus appendices, payable to "Consent Decree Library." Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Kade Coal Company, Inc.

[Docket No. M-96-36-C]

Kade Coal Company, Inc., Route 1, Box 513, Grundy, Virginia 24614 has filed a petition to modify the application of 30 CFR 77.214(a) (refuse piles; general) to its Mine No. 2 (I.D. No. 44-06483) located in Buchanan County, Virginia. The petitioner proposes to cover several entries at each abandoned mine opening with coarse refuse material during construction of a refuse fill. Presently, the petitioner is depositing coarse refuse material on the existing Red Ash seam bench (Refuse Disposal No: 1211-VA5-0297). The petitioner requests this modification of the standard, to allow four drift openings to be filled with refuse where drift entries to old mine workings at Mine No. 3 (I.D. No. 44-06310) exist, during construction of refuse fill. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

2. Monterey Coal Company

[Docket No. M-96-37-C]

Monterey Coal Company, Rural Route 4, Box 235, Carlinville, Illinois 62626 has filed a petition to modify the application of 30 CFR 75.380(d)(4)
