

providers disclose to consumers at the outset of operator assisted calls their identity, and, upon request, rates for the call, collection methods, and complaint procedures. In CC Docket No. 94-158, the Commission modified the term consumer thereby requiring that operator service providers disclose their identities to both parties, rather than one party to a collect call.

OMB Approval Number: 3060-0573.

Title: Application for Franchise Authority ("LFA") Consent to Assignment or Transfer of Control of Cable Television Franchise.

Form: FCC 394.

Type of Review: Revision of existing collection.

Respondents: Business or other for-profit.

Number of Respondents: 2,000 (1,000 system owners + 1,000 LFAs).

Estimated Time Per Response: 1-5 hours. Burden to cable system owners is estimated to be an average of 5 hours per application. We estimate that 50% owners will contract out the burden of filing and that it will take 1 hour to coordinate information with those contractors. The remaining 50% will employ in house staff to complete the application. 500 applications (50% contracted out) x 1 hour = 500 hours. 500 applications (50% in house) x 5 hours = 2,500 hours. Burden for owners = 500 + 2,500 = 3,000 hours. Burden to LFAs is estimated to be an average of 4 hours to review each application. This burden was previously treated as a third party requirement and was not reported by the Commission. We now include this burden in this collection's inventory. 1,000 applications x 4 hours = 4,000 hours.

Total Annual Burden: Total burden for all respondents: 3,000 + 4,000 = 7,000 hours.

Cost to respondents: \$377,000. Printing and postage costs are estimated at \$2 per application x 1,000 = \$2,000. Assistance by outside legal counsel will be paid at an average of \$150/hour for 50% of the Form 394 applications. \$150/hour x 500 applications x 5 hours per application = \$375,000. Total annual cost burden to respondents = \$2,000 + \$375,000 = \$377,000.

Needs and Uses: On 3/15/96, the Commission adopted an Order in CS Docket No. 96-56, Implementation of Sections 202(f), 202(i) and 301(i) of the Telecommunications Act of 1996. Among other things, this order eliminates the three-year holding requirement of cable systems and reduces ownership restrictions for cable systems. Though there are no revisions necessary to FCC Form 394 to reflect the

Commission's new rules, its use as an information collection requirement has been modified because potential respondents now may include broadcasters and multichannel multipoint distribution service providers other than cable operators. The FCC Form 394 is used to apply for LFA approval to assign or transfer control of a cable television system. The data are used by the LFAs to restrict profiteering transactions and other transfers that are likely to adversely affect cable rates or service in the franchise area.
