Supplemental Report
Report Pursuant to Section 1014(c) of Public Law 93-344

This report updates Deferral No. D96-2, which was transmitted to Congress on October 19, 1995.

This revision increases by \$44,285 the previous deferral of \$7,320,543 in the Limitation on administrative expenses, Social Security Administration, resulting in a total deferral of \$7,364,828. This increase results from the deferral of additional carryover of funds from FY 1995 that cannot be used in FY 1996.

JUSTIFICATION: This account includes funding for construction, renovation, and expansion of Social Security Trust Fund-owned headquarters and field office buildings. In addition, funds remain available for costs associated with acquisition of land in Colonial Park Estates adjacent to the Social Security Administration complex in Baltimore, Maryland. The Social Security Administration has received an approved FY 1996 apportionment for \$50,000 to cover potential upward adjustments of prior-year costs related to field office roof repair and replacement projects. The remaining funds will not be needed for obligation in FY 1996. This deferral reflects the actual amount available for construction in FY 1996, less the \$50,000 apportioned for potential upward adjustments in FY 1996. This action is taken pursuant to the Antideficiency Act (31 U.S.C. 1512).

Estimated Program Effect: None

Outlay Effect: None

1/ This account was the subject of a similar deferral in FY 1995 (D95-6A).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-37364; File No. SR-CBOE-96-36]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Chicago Board Options Exchange, Inc. Relating to the Interruption of RAES Due to Unusual Market Activity

June 25, 1996.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on June 12, 1996, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory

organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CBOE proposes to amend CBOE Rule 6.6, Unusual Market Conditions, to give the Order Book Official ("OBO") or the Post Director authority to turn off the Exchange's Retail Automatic Execution System ("RAES") for a class or classes of options and for a short period of time when, in the judgement of that OBO or Post Director, there is unusual market activity in such options or their underlying securities.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections (A), (B) and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to add a new paragraph (e) to CBOE Rule 6.6 that will authorize OBOs, and, in the case of options traded at Designated Primary Market-Maker ("DPM") stations, Post Directors temporarily to deactivate RAES in specified classes of options traded at the posts where such persons are stationed when in their judgement such action is warranted by an influx of orders or other unusual market conditions in such options or their underlying securities and the OBO or Post Director determines that such action is appropriate in the interests of maintaining a fair and orderly market. Whenever such action is taken, notice thereof shall immediately be given to two Floor Officials who may continue the deactivation of RAES for more than five minutes or take such actions as they deem necessary pursuant to their authority under Rule 6.6.

This rule change is being proposed to permit a more immediate response to events, such as significant news

announcements, that can cause temporary order imbalances and otherwise disrupt the market for stocks that underlie options traded on CBOE. In these situations stock prices may move sharply, and Exchange market-makers may not have time to adjust their options quotes in the numerous series of options that overlie these stocks. This may result in published options quotes that do not reflect current stock prices. Because orders sent to RAES are executed automatically at published quotations, customers may receive executions at unrealistic prices, some at a price more favorable than fair market prices and some less favorable than fair market prices.

Exchange Rule 6.6 currently authorizes two Floor Officials to respond to this situation by declaring the market in particular classes of options to be "fast," and then turning off RAES (and taking other action) until there has been time for prices to be adjusted. Because of the speed with which computerized order routing systems can direct orders to RAES, and because RAES itself provides for instantaneous automatic executions, there can be a significant number of executions at stale prices during the several minutes that it might take for two Floor Officials to declare a fast market. By authorizing OBOs and Post Directors to turn off RAES for up to five minutes, the response time to such a situation will be considerably shortened, and the number of executions at stale prices should be reduced accordingly. In this respect, the proposed rule change is not unlike the recently approved rule change that authorized Post Directors or OBOs to suspend trading in specified classes of options for up to five minutes when there is a trading halt or suspension of trading in the underlying security in the primary market.² There, as is proposed here, authority is given to the OBO or Post Director to deal quickly and on an interim basis with a situation where immediate response is called for, pending further consideration of the matter by two Floor Officials.

It is anticipated that in most instances where RAES is deactivated by an OBO or Post Director, the period of time when RAES is unavailable should be very brief, lasting less than five minutes. Even then, orders will continue to be delivered to the trading crowd via the Exchange's electronic order routing system ("ORS") and the trading crowd will remain obligated to fill customer
