Comments: The MMS will summarize written responses to this notice and address them in the request for OMB approval. All comments will become a matter of public record.

1. The MMS specifically solicits comments on the following questions:

(a) Is the proposed collection of information necessary for the proper performance of MMS' functions, and will it be useful?

(b) Are the estimates reasonable for the burden of the proposed collection?

(c) Do you have any suggestions that would enhance the quality, clarity, or usefulness of the information to be collected?

(d) Is there a way to minimize the information collection burden on those who are to respond, including use of appropriate automated electronic, mechanical, or other forms of information technology?

2. In addition, the PRA requires agencies to estimate the total annual cost burden to respondents or recordkeepers resulting from the collection of information. The MMS needs your comments on this item. Your response should split the cost estimate into two components:

(a) Total capital and startup cost component.

(b) Annual operation, maintenance, and purchase of services component.

Your estimates should consider costs associated with generating, maintaining, and disclosing or providing the information. You should include descriptions of methods used to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and period over which costs will be incurred. Capital and startup costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchases: (1) October 1, 1995; (2) to achieve regulatory compliance

with requirements not associated with the information collection; (3) for reasons other than to provide information or keep records for the Government; or (4) as part of customary and usual business or private practices.
