Equitrans states that since its restructuring took effect in September, 1993, it has found a number of inconsistencies, ambiguities, and typographical errors in the tariff which require correction or clarification. Equitrans states that it has also identified certain modifications which are required to comport the tariff to recent changes in Commission regulations. Finally, Equitrans states that it is proposing certain tariff modifications which are desirable based on its experience in operating in a restructured environment. Equitrans states that these tariff modifications are proposed with the intent of making Equitrans' tariff easier to use and refer to, thereby enhancing service to Equitrans' customers.

Equitrans states that these tariff revisions will have no impact on the nature of services Equitrans performs and will not result in a general increase in Equitrans revenues. Equitrans requests a shortened suspension period to permit the tariff sheets to take effect on March 1, 1996.
