The ANPR discussed the ongoing reviews of the ozone and PM standards and the integrated implementation approach that EPA has initiated for possible new or revised standards. That ANPR also presented key issues associated with each review and the integrated implementation approach and included the schedule for the completion of the review of the ozone and PM NAAQS.

**DATES:** Notice is hereby given that a public meeting on the ANPR for the ozone and PM NAAQS will be held on Thursday, July 25, 1996, from 10:00 a.m. to 9:00 p.m. EST. A second public meeting on the ANPR will be held on Monday, August 5, 1996, from 10:00 to 9:00 p.m. CST.

Seating will be available on a first-come, first-served basis. The public is invited to make short presentations at both meetings. In order to provide the most opportunity for possible comment, the Agency requests that anyone wishing to provide public comment at the meeting register in advance by sending a fax to the meeting facilitator, The Keystone Center. When sending the advance registration fax, please include your name, title, organizational affiliation, address, telephone number, fax number, and an indication of whether you plan to provide comments on: (1) Health and environmental effects of ozone and PM, (2) implementation issues, and/or (3) other issues (if so, please briefly indicate the issue you plan to comment upon). #### Approval and Promulgation of Implementation Plans Tennessee: Approval of Revisions to the Tennessee SIP Regarding Construction Permits and Volatile Organic Compounds

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the State implementation plan (SIP) revisions submitted by the State of Tennessee for the purposes of incorporating visibility protection requirements into the Construction Permits portion of the rule (1200-3-9-.01) and to respond to deficiencies of chapter 1200-3-18 as described in 60 FR 10504 published on February 27, 1995, which acted on the Tennessee VOC Reasonably Available Control Technology (RACT) submittal to meet the 1990 VOC RACT "Catch Up" requirements. The EPA is also approving two new rules into Tennessee's VOC chapter which regulate VOC emissions from offset lithographic printing operations and wood furniture finishing and cleaning operations. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** To be considered, comments must be received by August 19, 1996.

**ADDRESSES:** Written comments on this action should be addressed to William Denman at the Environmental Protection Agency, Region 4 Air Programs Branch, 345 Courtland Street, NE., Atlanta, Georgia 30365. Copies of documents relative to this action are available for public inspection during
