#### Approval and Promulgation of Implementation Plans Tennessee: Approval of Revisions to the Tennessee SIP Regarding Construction Permits and Volatile Organic Compounds

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the State implementation plan (SIP) revisions submitted by the State of Tennessee for the purposes of incorporating visibility protection requirements into the Construction Permits portion of the rule (1200-3-9-.01) and to respond to deficiencies of chapter 1200-3-18 as described in 60 FR 10504 published on February 27, 1995, which acted on the Tennessee VOC Reasonably Available Control Technology (RACT) submittal to meet the 1990 VOC RACT "Catch Up" requirements. The EPA is also approving two new rules into Tennessee's VOC chapter which regulate VOC emissions from offset lithographic printing operations and wood furniture finishing and cleaning operations. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** To be considered, comments must be received by August 19, 1996.
