Draft Environmental Impact Statement/General Management Plan, San Francisco Maritime National Historical Park, San Francisco County, Ca; Notice of Availability

SUMMARY: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969 (Pub. L. 91-190 as amended), the National Park Service (NPS), Department of the Interior, has prepared a draft environmental impact statement assessing the potential impacts of the proposed General Management Plan (DEIS/GMP) for San Francisco Maritime National Historical Park, San Francisco, California. Once approved, the plan will guide the management of the park over the next 15 to 20 years.

ALTERNATIVES: The proposed action (Alt. A) would emphasize the preservation and maintenance of the park's collection, including the fleet of historic vessels, small watercraft, library, and archival materials. The steam schooner *Wapama*, a National Historic Landmark, would not be preserved and would eventually be dismantled. The park would pursue multiple strategies for major ship restoration, such as continued use of commercial shipyards and appropriate agreements with San Francisco Bay Area dry dock facilities. Greater use of the park's collection by the public for research and interpretive purposes would be provided through the use of additional facilities, including

rehabilitation of the Haslett Warehouse. A distinct, 19th century San Francisco design theme would clearly establish the exceptional maritime identity of the park. The intersection at Hyde and Jefferson Streets would be redesigned to enhance pedestrian access and visibility of the pier and historic ships, and to expand interpretive opportunities. In addition to information regarding park facilities and programs, visitors would be encouraged to experience other related sites in the Bay Area.

Two additional alternatives are evaluated in the DEIS/GMP. Alternative B (Alt. B), similar to the proposed action, would emphasize the preservation and maintenance of the historic ships, small watercraft, library, and archival materials. Space would be upgraded and expanded for the park's collection. The park would pursue multiple strategies for major ship restoration work. Under Alt. B, the intersection of Hyde and Jefferson Streets would be developed further as an expanded/permanent pedestrian plaza with public seating, unobstructed views of the ships and Bay, and additional space for interpretive demonstrations, displays, and public programs.

Alternative C (Alt. C) is the "No Action/Minimum Requirements" option, and would continue current management strategies, with minimal actions implemented to stabilize and preserve the park's collection and historic properties.

SUPPLEMENTARY INFORMATION: The environmental consequences of the proposed action and the two other alternatives are fully documented in the DEIS/GMP, and appropriate mitigation measures to minimize impacts are identified. Copies of the DEIS/GMP will be available for public inspection at the park and at area libraries. Requests for copies of the document should be directed to: Superintendent, San Francisco Maritime National Historical Park, Attn: DEIS/GMP, National Park Service, Building E, Fort Mason, San Francisco, California, 94123, or by telephone at (415) 556-1659. Written comments on the draft document should also be directed to the Superintendent at the above address and must be received not later than 60 days after the publication of Notice of Availability by the Environmental Protection Agency.

Two public meetings will be held to facilitate public review of the DEIS/GMP. NPS officials will be available at these sessions to explain the alternatives, answer questions, and receive public comments. The first meeting will be held August 21, from

10:00 a.m. until 1:00 p.m., at Building F (Firehouse), Fort Mason, San Francisco, California. The second meeting will be held August 22, from 7:00 p.m. until 10:00 p.m., at the same location. For more details, contact San Francisco Maritime National Historical Park, Attn: DEIS/GMP, National Park Service, Bldg. E, Fort Mason, San Francisco, California, 94123, or inquire by telephone at (415) 556-1659.
