Notice of Proposed Administrative Settlement; Lorentz Barrel and Drum Superfund Site

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with Section 122(i)(1) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA," commonly referred to as Superfund), 42 U.S.C. 9622(i) and Section 7003(d) of the Resource Conservation and Recovery Act, as amended ("RCRA"), 42 U.S.C. 6973, notice is hereby given of a proposed cost recovery administrative settlement concerning the Lorentz Barrel and Drum Superfund Site in San Jose, California (the "Site"). The United States Environmental Protection Agency ("EPA") is proposing to enter into a *de minimis* settlement pursuant to Section 122(g)(4) of CERCLA. This proposed settlement is intended to resolve the liabilities under CERCLA and RCRA of 60 *de minimis* parties for all past and future response costs associated with the Lorentz Barrel and Drum Site. The names of the settling parties are listed below in the Supplementary Information section. These 60 parties collectively have agreed to pay \$1,838,224.30 to EPA and \$865,046.72 to the California Department of Toxic Substances Control ("DTSC").

EPA is entering into this agreement under the authority of Section 122(g)(4) of CERCLA. Section 122(g) authorizes early settlements with *de minimis* parties to allow them to resolve their liabilities at Superfund sites without incurring substantial transaction costs. A *de minimis* party is one that contributed a minimal amount of hazardous substances to a site in comparison to other hazardous substances at a site, and contributed hazardous substances that are not significantly more toxic or of significantly greater hazardous effect than other hazardous substances at a site. Under the authority granted by Section 122(g), EPA proposes to settle with 60 potentially responsible parties at the Lorentz Barrel and Drum Superfund Site, each of whom is responsible for no more than one percent of the total hazardous substances sent to the Site, as that total is reflected on the July 29, 1994 waste-in list developed by EPA.

De minimis settling parties will be required to pay their allocated share of
