Breed Technologies, Inc., Breed Automotive, L.P., Brownsville, TX; Notice of Revised Determination on Reconsideration

On May 3, 1996, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The notice was published in the Federal Register on May 24, 1996 (61 FR 26220).

The workers were denied TAA because they did not produce an article within the meaning of Section 222(3) of the Trade Act of 1974, as amended. The workers performed warehouse functions.

New investigation findings on reconsideration shows that in addition to late production warehouse and pre-shipping preparation, the workers were

producing air bags and sensors. The functions at the Brownsville, Texas location were shifted to Mexico. The company is importing the airbags and sensors to the United States from Mexico.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the workers of Breed Technologies, Inc., Breed Automotive, L.P., Brownsville, Texas were adversely affected by increased imports of articles like or directly competitive with air bags and sensors produced at the subject firm.

All workers of Breed Technologies, Inc., Breed Automotive, L.P., Brownsville, Texas, who became totally or partially separated from employment on or after March 1, 1995 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.
