**[TA-W-32,469]**

**Wallace & Tiernan, Incorporated  
Belleville, NJ; Notice of Revised  
Determination on Reopening**

On July 22, 1996, the Department, on its own motion, reopened its investigation for the former workers of the subject firm.

The initial investigation resulted in a negative determination on July 3, 1996, because the "contributed importantly" test of the Group Eligibility Requirements of the Trade Act was not met for workers at the subject firm. The denial notice will soon be published in the Federal Register.

The workers at Wallace & Tiernan, Incorporated located in Belleville, New Jersey produced hydraulic diaphragm pumps, diaphragm metering pumps and gravimetric and volumetric belt feeders. The workers are not separately identifiable by product line. The company official has provided new information regarding company imports of pumps and chemical feeders. Findings on reopening show that the company has increased its reliance on imports of pumps and chemical feeders from Wallace & Tiernan's foreign operations. All workers will be separated from employment at the Belleville production facility when the subject firm closes in September 1996.

**Conclusion**

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with pumps and chemical feeders produced by the subject firm contributed importantly to the declines in sales and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

All workers of Wallace & Tiernan, Inc., Belleville, New Jersey, who became totally or partially separated from employment on or after May 29, 1995, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, D.C. this 23rd day of July 1996.

Russell T. Kile,

*Acting Program Manager, Policy and  
Reemployment Services, Office of Trade  
Adjustment Assistance.*

BILLING CODE 4510-30-M

**[NAFTA-01015]**

**AVX Corporation, Myrtle Beach, SC;  
Amended Certification Regarding  
Eligibility To Apply for NAFTA  
Transitional Adjustment Assistance**

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on June 13, 1996, applicable to workers of AVX Corporation located in Myrtle Beach, South Carolina. The notice was published in the Federal Register on July 3, 1996 (61 FR 34875).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The affected workers were involved in the testing and packaging operations in the production of ceramic capacitors. New information provided by the company shows that workers are separately identifiable by product line. Accordingly, the Department is amending the certification to limit coverage to those workers of the subject firm in Myrtle Beach involved in testing and packaging operations related to production of ceramic capacitors.

The intent of the Department's certification is to include those workers of AVX Corporation who were adversely affected by the shift in production to Mexico.

The amended notice applicable to NAFTA-01015 is hereby issued as follows:

Workers of AVX Corporation, Myrtle Beach, South Carolina, involved in testing and packaging operations related to the production of ceramic capacitors, who became totally or partially separated from employment on or after May 7, 1995, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, D.C. this 26th day of July 1996.

Russell T. Kile,

*Acting Program Manager, Policy and  
Reemployment Services, Office of Trade  
Adjustment Assistance.*

BILLING CODE 4510-30-M

**[NAFTA-00634]**

**Lockheed Martin, Ocean, Radar and  
Sensor Systems, Utica, NY; Amended  
Certification Regarding Eligibility To  
Apply for NAFTA Transitional  
Adjustment Assistance**

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), the Department of Labor issued an Amended Certification for NAFTA Transitional Adjustment Assistance on November 30, 1995, applicable to workers of Lockheed Martin, Ocean, Radar & Sensor Systems located in Utica, New York. The notice was published in the Federal Register on December 12, 1995 (60 FR 63736).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. Information provided by the State shows that workers providing support services related to the production of printed circuit boards and inspection operations are being excluded from eligibility for NAFTA-TAA.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by increased imports from Canada or Mexico. Accordingly, the Department is again amending the

certification to include all support service workers engaged in employment related to the production of printed circuit boards and inspection operation of the printed circuit board assemblies at the Utica location of Lockheed Martin, Ocean, Radar & Sensor Systems.

The amended notice applicable to NAFTA-00634 is hereby issued as follows:

All workers, including support service staff, engaged in employment related to the production of printed circuit boards and all workers, including support service staff, engaged in employment related to the inspection operation of the printed circuit board assemblies at Lockheed Martin, Ocean, Radar & Sensor Systems Division, Utica, New York who became totally or partially separated from employment on or after October 5, 1994, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed in Washington, DC, this 16th day of July 1996.

Russell T. Kile,

*Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.*

#### [NAFTA-01025]

#### **Mullen Lumber Inc., Molalla, OR; Notice of Termination of Certification**

This notice terminates the Certification Regarding Eligibility to Apply For Worker Adjustment Assistance issued by the Department on June 13, 1996, for all workers of Mullen Lumber located in Molalla, Oregon. The notice was published in the Federal Register on July 3, 1996 (61 FR 34875).

The Department, on its own motion, reviewed the certification for workers of Muller Lumber Inc. Findings show that workers of the subject firm produced douglas fir and hemlock moldings, wainscoting and flooring.

The certification review revealed that Mullen Lumber, Molalla, Oregon produces higher grade lumber products that are not affected by increased imports of those products from Canada or Mexico.

Since there are no adversely affected workers of the subject firm, the continuation of the certification would serve no purpose and the certification has been terminated.

Signed at Washington, D.C., this 17th day of July 1996.

Russell T. Kile,

*Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.*

#### [NAFTA-TAA-00965]

#### **Sony Electronics, Carol Stream, IL; Dismissal of Application for Reconsideration**

Pursuant to 29 CFR 90.18(C) an application for administrative reconsideration was filed with the Program Manager of the Office of Trade Adjustment Assistance for workers at Sony Electronics, Carol Stream, Illinois. The review indicated that the application contained no new substantial information which would bear importantly on the Department's determination. Therefore, dismissal of the application was issued.

NAFTA-TAA-00965; Sony Electronics, Carol Stream, Illinois (July 19, 1996)

Signed at Washington, DC this 22nd day of July, 1996.

#### **Mine Safety and Health Administration**

#### **Proposed Information Collection Request Submitted for Public Comment and Recommendations; Mine Operator Dust Data Card**

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondents' burden, conducts a preclearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA 95) [44 U.S.C. § 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting

comments concerning the proposed extension of the information collection related to the Mine Operator Dust Data Card. MSHA is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who must respond through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the person listed in the Contact section of this notice.

**DATES:** Submit comments on or before October 7, 1996.

**ADDRESSES:** Submit written comments to: Mine Safety and Health Administration, Office of Standards, Regulations and Variances, Room 631, 4015 Wilson Boulevard, Arlington, VA 22203-1984. Commenters are encouraged to send their comments on a computer disk, or via E-mail to [psilvey@msha.gov](mailto:psilvey@msha.gov), along with an original printed copy.

**FOR FURTHER INFORMATION CONTACT:** George M. Fesak, Director, Office of Program Evaluation and Information Resources, MSHA, (703) 235-8378.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

Section 202 of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. § 842, and 30 C.F.R. Parts 70, 71, and 90 require coal mine operators to continuously maintain the average concentration of respirable dust in the mine atmosphere during each shift to which each miner in the active workings of each mine is exposed at or below 2.0 milligrams of respirable dust per cubic meter of air. Regulations promulgated under the Mine Act further require the mine operator during each bimonthly period to collect and submit dust samples to MSHA for analysis to determine compliance with the standards, along with reporting certain information to MSHA on a dust data
