

associated with another independent laboratory with knowledge of the products and product test standards. The applicant states further that all follow-up reports come directly to MET for review and analysis and that, under this procedure, it always maintains control of the certification program.

Preliminary Finding

Based upon a review of the completed application file and the recommendation of the staff, the Assistant Secretary has made a preliminary finding that the MET Laboratories, Inc. facility for which both renewal and expansion of its recognition was requested (Baltimore, Maryland) can meet the requirements as prescribed by 29 CFR 1910.7.

All interested members of the public are invited to supply detailed reasons and evidence supporting or challenging the sufficiency of the applicant's having met the requirements for renewal and expansion of its recognition as a Nationally Recognized Testing Laboratory, as required by 29 CFR 1910.7 and Appendix A to 29 CFR 1910.7. Submission of pertinent written documents and exhibits shall be made no later than October 8, 1996 and must be addressed to the NRTL Recognition Program, Office of Variance Determination, Room N 3653, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Copies of the MET application, the laboratory survey reports, and all submitted comments, as received, (Docket No. NRTL-1-88), are available for inspection and duplication at the Docket Office, Room N 2634, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address.

The Assistant Secretary's final decision on whether the applicant (MET Laboratories, Inc.) satisfies the requirements for renewal and expansion of its recognition as an NRTL will be made on the basis of the entire record including the public submissions and any further proceedings that the Assistant Secretary may consider appropriate in accordance with Appendix A to Section 1910.7.

Signed at Washington, DC, this 5th day of August, 1996.

Joseph A. Dear,

Assistant Secretary.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-029-DCOM ASLBP No. 96-718-01-R]

Atomic Safety and Licensing Board; Notice of Hearing (Application to Approve Facility Decommissioning Plan)

Before Administrative Judges: G. Paul Bollwerk, III, Chairman, Dr. Jerry R. Kline, Dr. Thomas S. Elleman

In the Matter of Yankee Atomic Electric Company (Yankee Nuclear Power Station)

August 5, 1996.

On October 27, 1995, the Commission published in the Federal Register a notice indicating that it (1) was considering issuing an order approving the decommissioning plan submitted by licensee Yankee Atomic Electric Company (YAEC) for the Yankee Nuclear Power Station, located near Rowe, Massachusetts, and (2) was offering an opportunity for a hearing on

the proposed plan approval. (60 Fed. Reg. 55,069.) On November 30, 1995, the Citizens Awareness Network, Inc. (CAN), and the New England Coalition on Nuclear Pollution (NECNP) filed a timely petition to intervene. With their hearing request, the petitioners submitted five contentions challenging the proposed approval of YAEC's decommissioning plan based, among other things, on alleged noncompliance with (1) agency standards regarding maintaining radiation doses as low as reasonably achievable (ALARA), and (2) the requirements of the National Environmental Policy Act of 1968 (NEPA).

In a January 16, 1996 memorandum and order, the Commission referred the petitioners' hearing request to the Atomic Safety and Licensing Board Panel for the appointment of a presiding officer to conduct any necessary proceedings. (See CLI-96-1, 43 NRC 1 (1996).) On January 18, 1996, the Chief Administrative Judge of the Panel appointed this Atomic Safety and Licensing Board to act on the Commission's referral. (61 Fed. Reg. 1953.) The Board consists of Dr. Jerry R. Kline, Dr. Thomas S. Elleman, and G. Paul Bollwerk, III, who serves as Chairman of the Board.

After receiving additional filings from the participants on the issues of the petitioners' standing and the admissibility of their five contentions, on February 21, 1996, the Board held a prehearing conference during which the parties made further presentations addressing those matters. On March 1, 1996, the Board dismissed the petitioners' intervention request, ruling that although the petitioners had established their standing to intervene, they had failed to present a litigable contention. (See LBP-96-2, 43 NRC 61 (1996)).

The petitioners appealed the Board's decision. In CLI-96-7, 43 NRC ____ (June 18, 1996), the Commission affirmed the Board's determinations regarding the petitioners' standing and the admissibility of their contentions based on the information then before the Board. The Commission, however, remanded to the Board a so-called "new dose argument" that the petitioners submitted to the Commission shortly after the Board's dismissal ruling. In making that referral, the Commission directed the Board to determine if the "new dose argument" met the agency's procedural standards governing "late filing" and the admissibility of contentions so as to warrant consideration in an adjudicatory hearing.

After receiving additional party filings and conducting another prehearing conference on July 16, 1996, the Board issued an additional ruling on the petitioners' hearing request. In its July 31, 1996 decision, the Board held that (1) dismissal of the petitioners' "new dose argument" as untimely was not warranted under a balancing of the five factors governing "late filing," and (2) elements of the "new dose argument" provided a sufficient basis for the admission of a contention concerning YAEC decommissioning plan compliance with ALARA principles and NEPA requirements. The Board thus granted the petitioners' hearing request.

Please take notice that a hearing will be conducted in this proceeding. This hearing will be governed by the formal hearing procedures set forth in 10 CFR Part 2, Subpart G (10 CFR §§ 2.700-.790).

During the course of the proceeding, the Board may conduct an oral argument, as provided in 10 CFR § 2.755, and may hold additional prehearing conferences pursuant to 10 CFR § 2.752. The public is invited to attend any oral argument, prehearing conference, or evidentiary hearing, which may be held pursuant to 10 CFR §§ 2.750-.751. In its July 31, 1996 decision, the Board established a schedule that provides for holding some such sessions. (See LBP-96-15, 44 NRC at ____ (slip op. app. at 1-3).) Notices of those sessions will be published in the Federal Register and/or made available to the public at the NRC Public Document Rooms.

In accordance with 10 CFR § 2.715(a), any person not a party to the proceeding may submit a written limited appearance statement setting forth his or her position on the issues in this proceeding. These statements do not constitute evidence, but may assist the Board and/or parties in the definition of the issues being considered. Persons wishing to submit a written limited appearance statement should send it to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch. A copy of the statement also should be served on the Chairman of the Atomic Safety and Licensing Board. The Board will decide at a later date whether to entertain oral limited appearance statements.

Documents relating to this proceeding are available for public inspection at the Commission's Public Document Room, the German Building, 2120 L Street, NW., Washington, DC 20555; and at the NRC Local Public Document Room at Greenfield Community College, 1

College Drive, Greenfield, Massachusetts 01301.

Dated: August 5, 1996.

For the Atomic Safety and Licensing Board.

G. Paul Bollwerk III, Chairman,
Administrative Judge.
