Notice of Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

In accordance with Departmental policy, 28 CFR 50.7 and 42 U.S.C. 9622(d)(2), notice is hereby given that a proposed consent decree in *United States v. Atlantic Richfield Company, et al.*, Civil Action No. CV-89-039-BU-PGH, was lodged on July 22, 1996, with the United States District Court for the District of Montana.

The complaint filed by the United States in 1989 seeks to recover past, unreimbursed costs under Section 107 of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), 42 U.S.C. 9607, incurred by the United States in connection with response actions taken at the Clark Fork Sites located in southwestern Montana. As part of its complaint, the United States sought recovery of costs from, *inter alia*, Cleveland Wrecking Company for costs incurred and to be incurred at the Anaconda Smelter Site.

The consent decree, which is between the United States and Cleveland Wrecking Company, requires Cleveland Wrecking to pay to the United States \$150,000 in reimbursement of past response costs associated with the Anaconda Smelter Site. The settlement is based on a demonstration by Cleveland Wrecking Company of its inability to reimburse the United States for any additional response costs. The consent decree includes a covenant not to sue by the United States under Sections 106 and 107 of CERCLA 42 U.S.C. 9606 and 9607. Under the terms of the decree, the United States has specifically reserved its right to seek relief from Cleveland Wrecking Company for any claims not specifically addressed in the decree.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, P.O. Box 7611, Ben Franklin

Station, Washington, D.C. 20044, and should refer to *United States v. Atlantic Richfield Company, et al.*, DOJ Ref. # 90-11-2-430.

Drug Enforcement Administration**EIS I and II Supplementation**

AGENCY: Drug Enforcement Administration, United States Department of Justice.

ACTION: Notice of intent to supplement programmatic environmental impact statements and explanation of the scope of study.

SUMMARY: A supplement to the programmatic environmental impact statements on eradication of Cannabis on Federal Lands in the continental United States (DEA-EIS-1), finalized in July 1985, and on Eradication of Cannabis on Non-Federal and Indian Lands in the Contiguous United States and Hawaii (DEA-EIS-2), finalized in May 1986, will be prepared. The supplement will consider current data pertinent to chemical treatment alternatives and techniques that have been developed in the past decade. Comments on this notice are welcome.

DATES: This order is effective August 13, 1996.

FOR FURTHER INFORMATION CONTACT: James E. Cappola, Chief, State and Local Programs Section, Drug Enforcement Administration, Washington, DC 20537, Telephone: (202) 307-8918.

SUPPLEMENTARY INFORMATION: The records of decision executed for the Cannabis eradication programmatic impact statements adopted the preferred alternative of operational flexibility which gives planners and decision makers at the action level the leeway to choose eradication techniques best suited to the situation from the standpoint of both efficacy and respect for the quality of the human environment. Those choices invariably are informed by environmental assessment processes tiered to the programmatic documentation. This approach to planning and decision making has enabled law enforcement officials to be responsive to everchanging circumstances in the field while remaining sensitive to local environment concerns.

Regulations implementing the National Environmental Policy Act call for the preparations of supplements to environmental concerns and bearing on the program or its impacts. 40 CFR 1502.9(c)(1)(ii). In the decade that has passed since the impact statements were finalized, considerable additional data about treatment alternatives employed in the Cannabis eradication program have been generated. New chemical treatment alternatives and techniques may also be available for use in the program. The supplement announced

here will consider these issues, update analyses relative to environmental consequences of the program, and, to the extent warranted, modify the menu of treatment alternatives and mitigation options from which planners and decision makers may choose at the action level.

Dated: August 7, 1996.
Harold D. Wankel,
Chief of Operations.
