DEPARTMENT OF JUSTICE

Notice of Lodging of Settlement Pursuant to the Clean Air Act

In accordance with Department policy, 28 CFR 50.7, notice is hereby given that on July 18, 1996, a proposed Consent Decree in *United States v. Georgia-Pacific Corporation*, (N.D.G.A.) (Civil No. 1 96-CV-1818-FMH), was lodged with the U.S. District Court for the Northern District of Georgia, Atlanta Division. The United States filed its compliant in this action simultaneously with the consent decree, on behalf of the Environmental Protection Agency ("EPA") pursuant to Section 113(b) of the Clean Air Act, 42 U.S.C. § 7413(b).

The complaint seeks injunctive relief and civil penalties for violations of the Act and regulations promulgated thereunder at eighteen wood processing facilities located in Alabama, Arkansas, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Virginia.

The complaint alleged that Georgia-Pacific Corporation ("G-P") failed to obtain permits required by the Prevention of Significant Deterioration ("PSD") regulations prior to making major modifications at these facilities. As a result, G-P's facilities are emitting significant amounts of volatile organic compounds ("VOCs"). Alternatively, the complaint alleges that even if the modifications at G-P's facilities did not trigger PSD, G-P still had an obligation to obtain construction permits for the modifications. Finally, the complaint alleges that G-P violated provisions of state implementation plans by failing to report VOC emissions on various permit applications.

Under the terms of the settlement, G-P will apply for PSD or federally enforceable state minor source permits for modifications at the 18 facilities, install state-of-the-art pollution control equipment at 11 of those plants, and agree to strict production limits at 2 additional plants. The consent decree requires a 90% reduction of VOC emissions from G-P's plywood and OSB dryers. In addition, for the remaining plants where G-P made modifications to its plywood presses, the consent decree obligates G-P to seek determinations from the state in which the facility is located of Best Available Control Technology for control of emissions resulting from the plywood presses.

The Consent Decree also requires G-P to conduct comprehensive Clean Air Act audits of all 26 of its wood product facilities nationwide and to monitor compliance with emission limits on a daily basis. In addition, G-P will pay a civil penalty of \$6 million and perform Supplemental Environmental Projects that will cost \$4.25 million.

The Consent Decree provides that G-P's satisfaction of all of the requirements of the Decree will constitute full settlement of, and will resolve all civil and administrative liability of G-P to the United States for, PSD and minor source permitting violations covering all criteria pollutants for the modifications listed in Schedule C to the Consent Decree, and for any other violations alleged in the Environmental Protection Agency's August 5, 1994 and May 18, 1995 Notices of Violation, or in the United States' Complaint.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments

concerning the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General of the Environment and Natural Resources Division, U.S. Department of Justice, Washington, D.C. 20530, and should refer to *United States v. Georgia-Pacific Corporation*, D.J. ref. 90-5-2-1-1851.

The proposed Consent Decree may be examined at the Office of the United States Attorney for the Northern District of Georgia, Atlanta Division, 1800 U.S. Courthouse, 75 Spring St., S.W., Atlanta, Georgia 30335 and at the Consent Decree Library, 1120 G Street, N.W., 4th Floor, Washington, D.C. 20005.
