

to clearly identify themselves for the record.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meetings and assist the staff in defining and clarifying the issues to be addressed in the EA.

Participants at the meetings are asked to keep oral comments brief and concise to allow everyone the opportunity to speak.

Persons choosing not to speak at the meetings, but who have views on the issues or information relevant to the issues, may submit written statements for inclusion in the public record. In addition, written scoping comments may be filed with the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426, until October 10, 1996.

All written correspondence should clearly show the following caption on the first page: Lytle Creek Project No. 1932, Santa Ana Project No. 1933, or Mill Creek 2/3 Project No. 1934.

All those that are formally recognized by the Commission as intervenors in the licensing proceeding are asked to refrain from engaging staff or its contractor in discussions of the merits of the project outside of any announced meeting.

Further, parties are reminded of the Commission's rules of Practice and Procedures, requiring parties filing documents with the Commission, to serve a copy of the document on each person whose name appears on the official service list.

For further information, please contact Thomas Dean at (202) 219-2778. Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5606-6]

Agency Information Collection Activities Under OMB Review; NSPS Synthetic Fiber Production

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) for NSPS subpart HHH, Synthetic Fiber Production Facilities described below has been forwarded to the Office of Management and Budget (OMB) for

review and comment. The ICR describes the nature of the information collection and its expected burden and cost.

DATES: Comments must be submitted on or before October 7, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1156.07.

SUPPLEMENTARY INFORMATION: Title: NSPS for Synthetic Fiber Production Facilities (subpart HHH); OMB Control No. 2060-0059; EPA ICR No. 1156.07. This requests an extension for a currently approved collection.

Abstract: This ICR collects compliance information from sources subject to NSPS subpart HHH. The recordkeeping and reporting provisions include initial notifications, performance tests, and quarterly excess emissions reports or semiannual reports. In addition to the general recordkeeping and reporting required by NSPS sources, subpart HHH requires a report if a source is claiming exemption under 60.600(a). The information is used to determine initial compliance and continued compliance through proper maintenance and operation. The collection of information is mandatory (40 CFR Part 60, CAA section 111). It has been determined that emissions data is not confidential information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 26, 1996, Volume 61 number 59; no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 32 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners and operators of synthetic fiber production plants.

Estimated Number of Respondents: 29.

Frequency of Response: Initial notifications, semiannually and annually.

Estimated Total Annual Hour Burden: 2449 hours.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1156.07, and OMB Control No. 2060-0059 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW., Washington, DC 20460.

and
Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA 725 17th Street, NW., Washington, DC 20503.

Dated: August 29, 1996.

Joseph Retzer,

Director, Regulatory Information Division.

Agency Information Collection Activities Under OMB Review; NESHAP for Coke Oven Batteries

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NESHAP for Coke Oven Batteries. The ICR describes the nature of the information collection and its expected burden and cost.

DATES: Comments must be submitted on or before October 7, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR Number 1362.03.

SUPPLEMENTARY INFORMATION:

Title: National Emission Standards for Coke Oven Batteries, Part 63, Subpart L;

OMB No. 2060-0253; EPA No. 1362.03; expiration date: October 31, 1996. This is an extension of a currently approved collection.

Abstract: Owners or operators of coke oven batteries, whether existing, new, reconstructed, rebuilt or restarted, are required to develop work practice and startup, shutdown, and malfunction plans, and record and submit reports including notifications and semiannual compliance certifications. Daily monitoring of coke oven batteries is required and is conducted by a certified observer provided by the enforcement agency at the respondent expense.

The information and data will be used by EPA and states to: (1) Identify batteries subject to the standards; (2) ensure that MACT and LAER are properly applied; and (3) ensure that daily monitoring and work practice requirements are implemented as required. Effective enforcement of the standard is particularly necessary because of the hazardous nature of coke oven emissions.

Based on recorded and reported information, EPA and states can identify compliance problems and specific records or processes to be inspected at the plant. The records that plants maintain help indicate whether plants are in compliance with the standard, reveal misunderstandings about how the standard is to be implemented, and indicate to EPA whether plant personnel are operating and maintaining their process equipment properly.

Reporting and recordkeeping requirements are mandatory under Sections 112 and 114 of the Clean Air Act as amended. All information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, Chapter 1, Part 2, Subpart B—Confidentiality of Business Information (See 40 CFR 2; 41 FR 36902, September 1, 1976; amended by 43 FR 39999, September 8, 1978; 43 FR 42251, September 28, 1978; 44 FR 17674, March 23, 1979).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 26, 1996.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 11 hours per

response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Owners or operators of coke oven batteries.

Estimated Number of Respondents: 35.

Frequency of Response: semiannual and on occasion.

Estimated Total Annual Hour Burden: 10,740 hours.

Estimated Total Annualized Cost Burden: \$2.4 million.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR Number 1362.03 and OMB Control Number 2060-0253 in any correspondence. Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460 and Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Dated: August 29, 1996.

Joseph Retzer,

Director Regulatory Information Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Part B Permit Application, Permit Modifications, and Special Permits

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Part B Permit Application, Permit Modifications, and Special Permits, OMB Control No. 2050-0009, expiring on October 31, 1996. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 7, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1573.05.

SUPPLEMENTARY INFORMATION:

Title: Part B Permit Application, Permit Modifications, and Special Permits, (OMB Control No. 2050-0009) expiring 10/31/96. This is a request for extension of a currently approved collection.

Abstract: Section 3010 of Subtitle C of RCRA, as amended, requires any person who generates or transports regulated waste, or who owns or operates a facility for the treatment, storage, or disposal (TSD) of regulated waste to notify the EPA of their activities, including the location and general description of the activities and the regulated waste handled. Section 3005 of Subtitle C of RCRA requires TSDs to obtain a permit. To obtain the permit, the TSD must submit an application describing the facility's operation. There are two parts to the application—Part A and Part B. Part A defines the processes to be used for treatment, storage and disposal of hazardous waste; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. Part B requires detailed site specific information such as geologic, hydrologic, and engineering data. In the event that permit modification are proposed by an applicant or EPA, modifications must conform to the requirements under Sections 3004 and 3005. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 4/4/96 (61FR15065); 4 comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for
