AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Reporting Requirements Under EPA's Water Alliances for Voluntary Efficiency (WAVE) Program. OMB Control Number 2040-0164. Expiration Date November 30, 1996. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 7, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202 260-2740, and refer to EPA ICR No. 1654.02.

SUPPLEMENTARY INFORMATION:

Title: Renewal—Reporting Requirements Under EPA's Water Alliances for Voluntary Efficiency (WAVE) Program (OMB Control Number 2040-0164; EPA ICR No. 1654.02)

expiring 11/30/96. This is a revision of a currently approved collection.

Abstract: EPA will annually collect water, energy, and cost savings information from "Partners" in the WAVE program. Partners can be commercial businesses, governments, or institutions that voluntarily agree to implement cost-effective water efficiency measures in their facilities. Initially the WAVE Program will target the lodging industry. Another type of participant, "Supporters," will work with EPA to promote water efficiency and provide information on products and services. Supporters could be equipment manufacturers, water management companies, utilities, local governments, or the like.

The purpose of the WAVE Program is pollution prevention. As defined by EPA, pollution prevention means "source reduction" as defined under the Pollution Prevention Act, and other practices that reduce or eliminate the creation of pollutants through increased efficiency in the use of raw materials, energy, water, or other resources, or through protection of natural resources by conservation.

EPA will use this information to monitor the success of the program, to demonstrate that pollution prevention can be accomplished with a non-regulatory approach, and to promote the program to potential partners. Participation in the WAVE Program is voluntary; however, once a participant joins the program, it is required to sign and submit a Memorandum of Understanding (MOU), an annual Results Report, and information on miscellaneous additional activities to EPA to receive and retain program benefits, such as software and publicity. No participant will be required to submit confidential business information. EPA will present aggregated data only in its program progress reports.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 6/17/96 (61 FR 30609); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average nine hours and 45 minutes per MOU response, four hours and 45 minutes per Results Report

response, and eight hours and 30 minutes for additional information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Entities potentially affected by this action are commercial businesses, hospitals, educational institutions, and multi-family housing units that voluntarily join EPA's WAVE Program. Major respondents are hotels and motels.

Estimated Number of Respondents: 55

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 4,654 hours.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1654.02 and OMB Control No. 2040-0164 in any correspondence.

CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1571.05 (General Hazardous Waste Facility Standards) and 1572.04 (Hazardous Waste Specific Unit Requirements, and Special Waste Processes and Types).

SUPPLEMENTARY INFORMATION:

Title: General Hazardous Waste Facility Standards (OMB Control No. 2050-0120; EPA ICR No. 1571.05); and Hazardous Waste Specific Unit Requirements, and Special Waste Processes and Types (OMB Control No. 2050-0050; EPA ICR No. 1572.04), both expiring 10/31/96. This is a request for extension of a currently approved collection.

Abstract: Owner/operators of hazardous waste treatment, storage and disposal facilities must comply with the standards developed by EPA under Section 3004(a) (1), (3), (4), (5) and (6) of the Resource Conservation and Recovery Act (RCRA) of 1976, as amended to protect human health and the environment. The standards specified in Section 3004(a) include, but are not limited to, the following requirements:
