SUPPLEMENTARY INFORMATION: The Plasma Physics Junior Faculty Development Program is being started in FY 1997. A principal goal of this program is to identify exceptionally talented plasma faculty members early in their careers and assist and facilitate the development of their research programs. Eligibility for awards under this notice is, therefore, restricted to tenure-track regular academic faculty investigators who are conducting experimental or theoretical plasma physics research. Emphasis is to be placed on basic plasma science research. For applications considered for funding, certification of the status of the applicant as a tenure-track regular academic faculty member by the head of the applicant's academic department or other university/college certifying official will be required before the grant is awarded.

It is anticipated that annual funding levels up to \$150,000 per award may be made available for grants under this notice during FY 1997, contingent upon the availability of appropriated funds. Funding for equipment above this level will be considered on a case-to-case basis. The number of awards and range of funding will depend on the number of applications received and selected for award. Multiple year funding of grant awards is expected, with funding provided on an annual basis subject to availability of funds. These grants will not normally be renewed after the project period is completed; grantees may, however, submit new grant

applications to continue their research using the usual departmental grant application process. Applications will be subjected to formal merit review and will be evaluated against the following criteria, which are listed in descending order of importance as set forth in 10 CFR Part 605:

1. Scientific and/or technical merit of the project;
2. Appropriateness of the proposed method or approach;
3. Competency of applicant's personnel and adequacy of proposed resources; and
4. Reasonableness and appropriateness of the proposed budget.

General information about development and submission of applications, eligibility, limitations, evaluations and selection processes, and other policies and procedures are contained in the Application Guide for the Office of Energy Research Financial Assistance Program and 10 CFR Part 605. The Application Guide is available from the U.S. Department of Energy, Office of Fusion Energy Sciences, Office of Energy Research, ER-55, 19901 Germantown Road, Germantown, Maryland 20874-1290.
