BILLING CODE 6718-01-P-M

Privacy Act of 1974; Proposed Amended Routine Use; Disaster Recovery Assistance Files

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice of proposed amended routine use.

SUMMARY: The Federal Emergency Management Agency gives notice of a proposed amended routine use to be added to an existing system of records entitled, FEMA/REG-2, Disaster Recovery Assistance Files.

DATES: We invite comments on this proposed amended routine use. Please submit written comments by October 23, 1996. The proposed amended routine use and other modifications to this system, as stated, shall become effective 45 days from the date of this publication, without further notice, unless comments necessitate otherwise.

ADDRESSES: Please address comments to the Rules Docket Clerk, Office of the General Counsel, Federal Emergency Management Agency, room 840, 500 C Street SW., Washington, DC 20472.

Comments received will be available for public inspection at the address above from 9 a.m. to 4 p.m., Monday through Friday (except legal holidays).

FOR FURTHER INFORMATION CONTACT:

Sandra Jackson, FOIA/Privacy Specialist, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3840.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) published notices of systems of records on January 5, 1987, 52 FR 324; February 3, 1987, 52 FR 3344; March 5, 1987, 52 FR 6875, and September 7, 1990, 55 FR 37182.

By this notice we amend a routine use to permit disclosure of a record from the Disaster Recovery Assistance Files to agencies or organizations that are responsible for administering or obtaining information relevant to the implementation of floodplain management and other hazard mitigation programs. The agencies or organizations include Federal, State, and local government agencies, and volunteer organizations. The programs include property acquisition, relocation programs, elevation programs, or any other hazard mitigation activities.

Since the 1993 Midwest Flooding, there has been a substantial increase in the number of requests to FEMA for information on applicants for disaster recovery; such information is covered by the Privacy Act. Almost all requests are from State and local agencies to evaluate disaster damages and their impacts on communities, and to implement floodplain management ordinances and hazard mitigation measures. There is no clear routine use to release Privacy Act information for these purposes. Each request requires review and analysis on a case-by-case basis by the Office of the General Counsel and by the Human Services Division of the Response & Recovery Directorate.

The Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (Stafford Act), encourages floodplain management and other hazard mitigation measures to reduce losses from disasters, including development of land use and construction regulations. Section 404, Hazard Mitigation, of the Stafford Act authorizes funding for such projects.

The proposed amended routine use would enhance timely and efficient delivery of FEMA's all-hazards management because obtaining applicant assistance information, crucial to the implementation of floodplain management ordinances and hazard mitigation projects will be more easily

obtainable than now by those entrusted with those responsibilities.

In addition, minor modifications are being made to this system to change the name of the Disaster Relief Act to the Robert T. Stafford Disaster Relief and Emergency Assistance Act; the System Location to the FEMA National Processing Service Centers under the purview of FEMA regional offices listed in Appendix AA; and to update the mailing addresses of FEMA Regional Offices listed in Appendix AA.

Accordingly, we revise FEMA/REG-2, Appendix A, and Appendix AA of the FEMA Privacy Act systems of records to read as follows:

FEMA/REG-2

SYSTEM NAME:

Disaster Recovery Assistance Files.

SECURITY CLASSIFICATION:

Unclassified.
