#### Fenpropathrin; Pesticide Tolerance, Correction

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final Rule, correction.

**SUMMARY:** EPA is correcting its rule published on July 31, 1996, which established tolerances for residues of the insecticide/miticide fenpropathrin, a synthetic pyrethroid, in or on the raw agricultural commodities (RACs) peanuts and peanut hay, and increases tolerances in meat, meat byproduct and fat of cattle, goats, hogs, horses and sheep and poultry; eggs; and milkfat.

**EFFECTIVE DATE:** This regulation becomes effective October 2, 1996.

**FOR FURTHER INFORMATION CONTACT:** By mail: George T. LaRocca, Product Manager (PM) 13, Registration Division (7505C), Office of Pesticide Programs,

Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Second Floor, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA 22202. (703) 305-6100, e-mail: larocca.george@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:** EPA issued a rule in the Federal Register of July 31, 1996 (FRL-5385-1) which amended 40 CFR 180.466 by establishing tolerances for residues of the insecticide fenpropathrin (alpha-cyano-3-phenoxybenzyl 2,2,3,3-tetramethylcyclopropanecarboxylate) in or on the raw agricultural commodities (RACs) peanuts, vines and peanuts, hay (dried) at 20 parts per million (ppm); milkfat at 2.0 ppm (reflecting 0.08 ppm in whole milk); fat (cattle, goats, hogs, horses, and sheep) at 1.0 ppm; peanut hulls at 0.3 ppm; meat and meat byproducts (mbyp) (cattle, goats, horses, and sheep) at 0.1 ppm; poultry meat, fat, mbyp and eggs at 0.05 ppm; and peanut nut meat at 0.01 ppm.

In this rule EPA inadvertently left out of the preamble certain information relevant to the conditional registration for fenpropathrin and did not include the expiration date for these new tolerances, which were established as time-limited tolerances that would expire on November 15, 1997.

In addition, EPA inadvertently omitted from the table the new tolerance levels for sheep, fat, sheep, mbyp and sheep, meat. These oversights are corrected below.

Accordingly, FR Doc. 96-19330, published in the Federal Register of July 31, 1996 at page 39887, is corrected as follows:

1. On page 39888, at the bottom of the first column, insert the following two paragraphs.

"The Agency issued a conditional registration for fenpropathrin for use on cotton with an expiration date of

November 15, 1993 (see the Federal Register of April 14, 1993 (58 FR 19357)). The conditional registration was subsequently amended and extended to November 15, 1996 (see the Federal Register dated February 22, 1995 (60 FR 9783)). The registrations were amended and extended to allow time for submission and evaluation of additional environmental effects data. In order to evaluate the effects of the pyrethroids on fish and aquatic organisms and its fate in the environment, additional data were required to be collected and submitted during the period of conditional registration. Such requirements included a sediment bioavailability and toxicity study and a small-plot runoff study that must be submitted to the Agency by July 1, 1996. Due to the conditional status of the registration, tolerances have been established for fenpropathrin on a temporary basis, (until November 15, 1997) on cottonseed, meat, fat and meat-byproducts of hogs, horses, cattle, goats, sheep, poultry, eggs and milk to cover residues expected to be present from use during the period of conditional registration. To be consistent with the conditional registration status of fenpropathrin on cotton the Agency is establishing these tolerances with an expiration date of November 15, 1997.

Residues remaining in or on the above commodities after expiration of these tolerances will not be considered actionable if the pesticide is legally applied during the term of and in accordance with provisions of the conditional registration."

2. On page 39889, the table to § 180.466 is corrected by revising the entry for cattle, fat and by adding entries alphabetically for sheep, fat, sheep, mbyp and sheep, meat, to read as follows:

Commodity	Parts per million	Expiration date
Cattle, fat .....	1.0	Nov. 15, 1997
* * * * *	* * *	
Sheep, fat .....	1.0	Do.
Sheep, mbyp .....	0.1	Do.
Sheep, meat .....	0.1	Do.

**40 CFR Part 300**

[FRL-5619-1]

**National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of deletion of the AMP site in Glen Rock, in York County, Pennsylvania, from the National Priorities List.

**SUMMARY:** The Environmental Protection Agency ("EPA") announces the deletion of the AMP Site ("Site"), located in Glen Rock, York County, Pennsylvania, from the National Priorities List ("NPL"). The NPL, a list of sites EPA evaluates for priority cleanup of hazardous wastes, is found in Appendix B of the National Oil and Hazardous Substances Pollution Contingency Plan ("NCP"), 40 CFR part 300, Appendix B. EPA promulgated the NCP pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA").

EPA announces this deletion under the terms of a policy published in the Federal Register on March 20, 1995. In this policy EPA announced that, consistent with NCP criteria for deletion of sites from the NPL, the Agency would delete sites if corrective action was proceeding pursuant to the Resource Conservation and Recovery Act ("RCRA"). EPA has determined that this deferral to RCRA authorities is appropriate. EPA has received the following concurrence from Commonwealth of Pennsylvania Department of Environmental Protection: "The Commonwealth of Pennsylvania concurs in the decision to delete the site from the NPL, but reserves all of its rights, abilities and authorities to address contamination at the site and to pursue responsible parties regarding this contamination."

**EFFECTIVE DATE:** October 2, 1996.

**FOR FURTHER INFORMATION CONTACT:** Frank Vavra, Remedial Project Manager,

Superfund Branch—3HW22, 841 Chestnut Street, Philadelphia, Pennsylvania 19107, (215) 566-3221.

**SUPPLEMENTARY INFORMATION:** A Notice of Intent to Delete this Site was published on July 26, 1996 in the Federal Register (56 FR 39104). The closing date for comments on the Notice of Intent to Delete was August 26, 1996. EPA did not receive any comments on the proposed deletion.

EPA identifies sites that appear to present a significant risk to public health or the environment and maintains the NPL as the list of those sites. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substances Superfund Response Trust Fund (Fund). Pursuant to 40 CFR 300.425(e)(3), any site deleted from the NPL remains eligible for Fund-financed remedial actions in the unlikely event that conditions at the site warrant such action in the future. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.
