In addition, the consent decree resolves claims by the State of New Jersey, Department of Environmental Protection ("NJDEP") against Settling Defendants and claims by Settling Defendants against Settling State Agencies.

Under the terms of the consent decree, the Hazardous Substance Superfund will receive approximately \$109 million, and NJDEP approximately \$6.6 million, in satisfaction of liability pursuant to Section 107 of CERCLA, 42 U.S.C. § 9607, for certain response costs previously incurred or to be incurred in connection with the Site. In addition, Settling Defendants will perform, subject to certain conditions, future response actions at the Site. The settlement embodied in the consent decree has a total value to the Hazardous Substance Superfund and NJDEP of at least \$221.5 million in cash and response actions. Approximately \$46.7 million of that amount will be paid by Settling Defendants and the balance by the United States on behalf of Settling Federal Agencies. The total value of the settlement could be higher, depending on the cost of certain response actions to be performed under the settlement.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed consent decrees. In addition, because the United States is further providing defendants with covenants not to sue under Section 7003 of the Resource Conservation and Recovery Act, 42 U.S.C. § 6973, the United States will provide an opportunity for a public meeting in the affected area, if requested within the thirty (30) day public comment period.
