[Docket No. CP97-23-000]**Williams Natural Gas Company; Notice
of Request Under Blanket
Authorization**

October 17, 1996.

Take notice that on October 10, 1996, Williams Natural Gas Company (Applicant), P.O. Box 3288, Tulsa, Oklahoma 74101, filed in Docket No. CP97-23-000 a request pursuant to 157.205, 157.212 and 157.216 of the Commission's Regulations under the Natural Gas Act for authorization to (1) to relocate and reinstall the Glacier Petroleum Company, Inc. (Glacier) meter setting, and after relocation, (2) to abandon by sale to Glacier approximately 1.56 miles of the Thrall 3-inch lateral pipeline, all located in Greenwood County, Kansas, under blanket certificate issued in Docket No. CP82-479-000,¹ all as more fully set forth in the request for authorization on file with the Commission and open for public inspection.

Applicant proposes to reclaim the existing Glacier meter setting, originally installed in 1940 and replaced in 1986, from Section 28, Township 23 South, Range 10 East, and to reinstall it at the point where the 3-inch Thrall lateral pipeline branches off Applicant's 4-inch line in Section 16, Township 23 South, Range 10 East. Relocating the meter setting to Applicant's mainline will make it possible to sell in place to Glacier approximately 1.56 miles of 3-inch pipeline downstream of the relocated meter. Applicant states the 3-inch Thrall line was originally installed in 1940 and certificated in Docket No. G-298.

Applicant states the cost to relocate the Glacier meter setting is estimated to be \$4,743. Since the existing meter setting will be reinstalled, any meter setting reclaim costs are included in the cost of construction. There are no reclaim costs associated with the pipeline since it will be sold in place for \$10. Applicant states that the projected volume of delivery is not expected to exceed the current delivered volume. Applicant states that this change is not prohibited by its existing tariff and that it has sufficient capacity to

accommodate the service proposed herein without detriment or disadvantage to its other customers.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

City of Summersville; Notice of Availability of Final Environmental Assessment

October 17, 1996.

A final environmental assessment (FEA) is available for public review. The project is located on the Gauley River in Nicholas County, West Virginia.
