Approval and Promulgation of Implementation Plan; Wisconsin

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve a revision to the Wisconsin State Implementation Plan (SIP) for ozone that was submitted on June 30, 1994, and supplemented on July 15, 1994. This revision consists of a volatile organic compound (VOC) regulation which establishes reasonably available control technology (RACT) for iron and steel foundries. This regulation was submitted to address, in part, the requirement of section 182(b)(2)(C) of the Clean Air Act (CAA or Act) that States revise their SIPs to establish RACT regulations for major sources of VOCs for which the USEPA has not issued a control technology guidelines (CTG) document. In addition, emission reductions resulting from this rule are being used by the State to fulfill, in part, the requirement of section 182(b)(1) of the Act that States submit a plan which provides for a 15 percent reduction in VOC emissions by 1996. In the final rules section of this Federal Register,

the EPA is approving this action as a direct final without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this document should do so at this time.

DATES: Comments on this proposed action must be received by March 14, 1996.

ADDRESSES: Written comments should be sent to: Carlton T. Nash, Chief, Regulation Development Section, Air Toxics and Radiation Branch (AT-18J), EPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604-3590.

Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision; Santa Barbara County Air Pollution Control District; Kern County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the California State Implementation Plan (SIP) which

concern the control of volatile organic compound (VOC) emissions from organic liquid storage and loading, and petroleum sumps, pits and well cellars. The intended effect of proposing approval of these rules is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Rules section of this Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. Extension of Comment Period for the Proposed Identification and Listing of Hazardous Waste/Petroleum Refining

AGENCY: U.S. Environmental Protection Agency.

ACTION: Proposed rule; extension of comment period; notice of data availability.

SUMMARY: The U.S. Environmental Protection Agency (EPA or Agency) is extending the comment period for the proposed listing determination for the petroleum refining industry, which appeared in the Federal Register on November 20, 1995 (see 60 FR 57747). The public comment period for this proposed rule was to end on February 20, 1996. The purpose of this notice is to extend the comment period to end on March 21, 1996, and to provide notice

of additional information that has been added to the docket.

DATES: EPA will accept public comments on this proposed listing determination until March 21, 1996.

ADDRESSES: The public must send an original and two copies of their comments to EPA RCRA Docket Number F-94-DPLP-FFFFF, RCRA Information Center (5305W), U.S. EPA, 401 M Street SW., Washington, D.C. 20460. To hand-deliver comments, or to review docket materials, the address is U.S. EPA, Crystal Gateway, First Floor, 1235 Jefferson Davis Highway, Arlington, VA. The docket is open from 9 am to 4 pm, Monday through Friday, excluding Federal holidays. The public must make an appointment to review docket materials by calling (703) 603-9230. The public may copy material from any regulatory docket at no cost for the first 100 pages, and at \$0.15 per page for additional copies.

FOR FURTHER INFORMATION CONTACT: For technical information concerning this notice, please contact Max Diaz, Office of Solid Waste (5304), U.S. Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460, (202) 260-4786.

SUPPLEMENTARY INFORMATION: This proposed rule was issued under Section 3001(b) of RCRA. EPA proposed to list certain wastes generated during the refining of petroleum because these wastes may pose a substantial present or potential risk to human health or the environment when improperly managed. See 60 FR 57747 (November 20, 1995) for a more detailed explanation of the proposed rule.

Extension of Comment Period

The comment period for this proposed rule was scheduled to end on February 20, 1996. However, the RCRA Docket was closed due to the partial

government shutdown from December 15, 1995 until January 6, 1996, and from January 8 until January 12, 1996 due to inclement weather. In addition, the Agency received five requests from interested parties to extend the comment period. Therefore, EPA is extending the comment period until March 21, 1996.

New Information in Docket

EPA added the following materials to the docket based on suggestions from outside parties:

(1) Preliminary Refinery Waste Questions, submitted by the Environmental Defense Fund, dated January 22, 1996;

(2) Summary of Meeting with EDF on January 24, 1996; which includes a) EPA's responses to EDF's January 22, 1996, Preliminary Refinery Waste Questions; b) Discussion prepared by EPA of the Presence of Bis(2-ethylhexyl) phthalate in Refinery Residuals dated June 5, 1995; c) Listing of 1992 On-site Land Treatment Units and On-site Landfills; d) Memoranda referencing residual information used to conduct the listing determination; e) Summary of 1992 Petroleum Refining Data Base Listing Residuals-Volume and Management Statistics;

(4) EPA's responses to API's December 13, 1995, Risk Modeling Questions. EPA is anticipating additional meetings with interested parties in the future; the docket will be updated accordingly.

Dated: February 6, 1996.

Director, Office of Solid Waste.
