#### Radio Broadcasting Services; Portland and Seaside, Oregon

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** The Commission requests comments on a petition filed by Radio Systems of Miami, Inc., requesting the substitution of Channel 254C1 for Channel 253C at Portland, OR, and the modification of Station KUPL-FM's license to specify operation on the lower class channel. The substitution of channels could enable Station KUPL-FM to relocate its transmitter and eliminate its use of a translator station. To accommodate the substitution of channels at Portland, the petitioner also requests that Channel 235A or Channel 272A be substituted for Channel 255A at Seaside, OR, and the construction permit of Station KULU(FM) be modified to specify the alternate Class A channel. Channel 254C1 can be allotted to Portland in compliance with the Commission's minimum distance separation requirements with a site restriction of 9.1 kilometers (5.6 miles) west, at coordinates 45-30-58 NL; 122-43-59 WL, to accommodate petitioner's

desired transmitter site. Channels 235A and 272A can both be allotted to Seaside at the transmitter site set forth in Station KULU(FM)'s construction permit, at coordinates 45-54-35 NL; 123-56-07 WL, which is 10.1 kilometers (6.3 miles) south. Canadian concurrence in the allotments is required since both communities are located 320 kilometers (200 miles) of the U.S.-Canadian border.
