SUPPLEMENTARY INFORMATION: President Clinton signed the Federal Oil and Gas Royalty Simplification and Fairness Act (RSFA) on August 13, 1996, to improve the management of royalties from Federal and Outer Continental Shelf oil and gas leases. This is the first major legislation affecting royalty management since the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) was passed in January 1983. The key issues of RSFA implementation listed by near term and longer term focus are:

Near Term Focus

- Report and Pay/Credit Interest on Overpayments.
- Accept Interest Payments and Reporting from "Designees" on Underpayments.
- Issue Enforceable Demands (Orders to Pay) to Operating Rights Owners Related to Production Occurring After 8/31/96.
- Implement the Repeal of Section 10 of the Outer Continental Shelf Lands Act.
- Provide for Self Bonding for Appeals Relating to Underpayments of Production After 09/01/96.
- Implement Section 205 Amendments (State Delegations) in Consultation With States.
- Implement Reporting Requirements on Takes/Entitlement Basis.
- Implement Marginal Properties Exception to RSFA Entitlement Reporting Requirements.
- Provide Accounting, Reporting, and Auditing Relief for Marginal Properties.
- Process Written Refund Requests Within 120 Days of Receipt.

- Address Cost/Benefit Provision of the RSFA.

Long Term Focus

- BLM/OMM Approval of Unit/Communitization Agreements Within 120 Days.
- Monitor Adjustments Beyond the "6-year Adjustment Period" or Closed Audit Periods for Production After 09/01/96.
- Assess for Chronic Erroneous Reporting.
- Resolve and Bill, if Appropriate, Existing Takes/Entitlement Issues as of RSFA (08/13/96) Within 2 Years.
- Allow for Prepayments of Future Revenue Streams.
- Implement 7 Year Statute of Limitations for MMS' Processes.
- Process All Appeals Within 33 months.

We believe that contacts with both State government agencies and the oil and gas industry are critical to gaining information, views, ideas and approaches that will facilitate MMS moving forward with implementation plans.

Also, we believe that such contacts are important for keeping our affected constituencies informed on the status of implementation efforts.

We believe our implementation strategy should be flexible and provide for a range of outreach approaches. For example, topics such as how to best establish the identity of designees and operating rights owners may be appropriate for Customer Feedback Sessions to obtain customer input during the evaluation of possible implementation alternatives. Other topics such as how to implement the provisions for marginal properties as well as the implementation of FOGRMA Section 205 amendments (state delegations) are likely candidates for a workshop approach to facilitate extensive and ongoing dialog. Development of the major implementing regulations required by RSFA will also require extensive outreach with State government agencies and industry using this strategy.

MMS has invited representatives from State and industry organizations to participate in the more structured discussion. Organizational representatives and the MMS contact are listed in the **FURTHER INFORMATION** section. Please direct your questions and comments to the representatives.

In complying with the Small Business Regulatory Enforcement Fairness Act of 1996, we are also soliciting comments from small entities as to the impact revised reporting requirements and regulations resulting from RSFA will

have on their operations. In preparing rules required by RSFA, we will also work to comply with new requirements of other recently passed laws and Executive Orders affecting regulatory development.

Customer Feedback Sessions

MMS met with a working group of representatives from State government agencies and industry organizations in an initial outreach planning meeting in October 1996.

The next phase of our outreach strategy centers around a series of feedback sessions designed to present and discuss specific actions taken and planned to implement one or more of the previously listed key RSFA issues.

We feel that we can best work with our stakeholders on an issue-by-issue basis to implement the requirements of RSFA. At these sessions MMS would describe work to date including any decisions reached which should, because of the timing, be communicated to stakeholders.

As we schedule issue-specific meetings, we will notify members of the working group that met in October. Each member of the working group will then make sure those stakeholders whom they represent are appropriately represented at the scheduled meetings. The objectives and expected benefits of these meetings include a forum to gain an understanding of the various positions of the stakeholders regarding the issues presented. Periodically, we will meet with the entire working group to discuss overall progress in implementing all issues related to RSFA.

Workshop Strategy

The workshop strategy is intended to focus on selected aspects of RSFA where MMS believes that State government agencies and industry positions should be fully developed and evaluated before MMS selects its implementation approach.

This approach will rely primarily on workshops to be held in Denver, Colorado. Other locations such as Houston may be appropriate for selected workshops. The topics will be developed in consultation with industry trade groups and State government agencies. MMS will determine the final list of topics and the agenda for each workshop.

Payor and Operator Training Sessions

These sessions which take place several times a year provide opportunities for exchange of information and ideas on new initiatives currently underway. Industry

representatives at these sessions can attend with the expectation of some level of discussion on the RSFA issues. Questions can be raised and discussed.

Day to Day Contacts

Within three of RMP's divisions, employees and contractor personnel have day to day contacts with industry representatives. Questions can be asked daily by many payors and operators reporting to RMP.

Other Sessions

Many other sessions that involve industry and State government agencies will take place over the next few months which are not specifically organized to deal with RSFA or its implementation, but which will nevertheless require a level of understanding of RSFA for attendees. Sessions for discussing electronic reporting will take place and our representative can be asked to discuss the implications of RSFA as it relate to electronic reporting. Clearly, industry will require as much lead time as RMP to properly prepare for future changes to reporting requirements.

In order to accomplish a broad based fact finding on how the requirements of RSFA affect our customers and stakeholders, comments from the public are encouraged on any issue related to implementing RSFA. In addition to attendance at the previously described sessions and workshops comments can be made in writing and be sent directly to MMS using instructions in the ADDRESSES part of this notice.

Date: October 22, 1996.

James W. Shaw,

Associate Director for Royalty Management.
