#### **SUPPLEMENTARY INFORMATION:**

##### **Background Information**

On November 28, 1995, the President signed the Alaska Power Administration Asset Sale and Termination Act (Pub. L. 104-58), authorizing exports of Alaskan North Slope (ANS) crude oil when transported in U.S. flag tankers. Section 401 of the statute directs the Coast Guard to submit, within 15 months of enactment of the Act, a plan to Congress on the most cost-effective means of implementing an international private sector tug of opportunity system. The plan is to include a coordinated system of communication, using exiting towing vessels to provide timely emergency response to a vessel in distress transiting the waters within the boundaries of the Olympic Coast Marine Sanctuary or the Strait of Juan de Fuca.

In order to implement this action, the Department of Transportation has required that the Coast Guard establish marine safety requirements concerning crew qualification, tug performance capabilities, and response times which any proposed international tug-of-opportunity system (ITOS) must meet to ensure marine environmental safety. In addition, the Coast Guard has proposed to establish specific ITOS documentation requirements needed to properly describe the operation of any proposed ITOS so that it may be fully evaluated as required by Public Law 104-58.

These marine safety requirements and documentation requirements are contained in the Interim Report on the International, Private-Sector Tug-of-Opportunity System for the Waters of the Olympic National Marine Sanctuary and the Strait of Juan de Fuca and will be revised based upon public comments received in a prior public meeting held on October 17, 1996. The comments from the October 17, 1996 meeting will be addressed in a future notice.

The present meeting provides the public an opportunity to comment directly on the ITOS plan submitted by the marine operating community which the Coast Guard is currently reviewing. Initial copies of the interim report were provided to interested parties, distributed by Federal Register notice, and distributed at the October 17, 1996 public meeting. Additional copies of the interim report and copies of the ITOS plan may be obtained by contacting the Office of Response (G-MOR-1),

Directorate of Field Operations, US Coast Guard, 2100 Second Street SW., Washington DC 20593-0001 or by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.
