Submission For OMB Review;
 Comment Request

The Department of Commerce (DOC) has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the

provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.
 Title: Survey of Income and Program Participation - 1996 Panel Wave 4.
 Form Number(s): SIPP-16303
 Reminder Card, SIPP/CAP Automated Instrument.
 Agency Approval Number: 0607-0813.

Type of Request: Revision of a currently approved collection.

Burden: 117,800 hours.

Number of Respondents: 77,000.

Avg Hours Per Response: 30 minutes.

Needs and Uses: The Bureau of the Census conducts the Survey of Income and Program Participation (SIPP) to collect information from a sample of households concerning the distribution of income received directly as money or indirectly as in-kind benefits. SIPP data are used by economic policymakers, the Congress, state and local governments, and Federal agencies that administer social welfare and transfer payment programs such as the Department of Health and Human Services, the Department of Housing and Urban Development, and the Department of Agriculture. The SIPP is a longitudinal survey, in that households in the panel are interviewed 12 times at 4 month intervals or 'waves' over the life of the panel, making the duration of the panel about 4 years. The next panel of households will be introduced in the year 2000. The survey is molded around a central core of labor force and income questions, health insurance questions, and questions concerning government program participation that remain fixed throughout the life of a panel. The core questions are asked at Wave 1 and are updated during subsequent interviews. The core is periodically supplemented with additional questions or topical modules designed to answer specific needs. This request is for clearance of the topical modules to be asked during Wave 4 of the 1996 Panel. The Core questions have already been cleared. Topical modules for waves 5 through 12 will be cleared later. The topical modules for Wave 4 are: 1) Annual Income and Retirement Accounts. 2) Taxes, 3) Work Schedule, 4) Child Care, and 5) Disability. Wave 4 interviews will be conducted from April through July 1997.

Affected Public: Individuals or households.

Frequency: Every 4 months.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 182.

OMB Desk Officer: Jerry Coffey, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, Acting DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5312, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent

within 30 days of publication of this notice to Jerry Coffey, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: October 31, 1996.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Bureau of the Census conducts the Survey of Housing Starts, Sales and Completions, also known as the Survey of Construction (SOC), to collect monthly data on new residential construction from a sample of owners or builders. The data collected includes starts and completions dates of construction, physical characteristics of the structure (floor area, number of bathrooms, type of heating system, etc.), and if applicable, date of sale, sales price, and type of financing. The SOC program provides widely used measures of construction activity, including the economic indicators Housing Starts,

Housing Completions, and New Housing Sales.

Currently, Census Bureau Field Representatives (FRs) mail forms SOC-900.1 and SOC-900A.1, which are facsimiles of the data collection forms, to respondents. The FR then uses paper forms SOC-900 and SOC-900A to record respondents' answers during a later telephone or personal interview.

After July 1997, FRs will collect the data using Computer Assisted Personal Interviewing (CAPI). We have been experimenting with CAPI and have been using this technology on a test basis since November 1995. For CAPI, we will replace the SOC-900.1 and SOC-900A.1 forms with the SOC-QI/SF.1 and SOC-QI/MF.1 forms. We will also replace the SOC-900 and SOC-900A data collection forms with electronic versions. The new data collection forms and the facsimiles mailed to respondents' are virtually the same as the old forms.

The use of CAPI will not affect respondent burden. We are, however, requesting a reduction in burden of 42 hours. This reduction is attributable to our completion of a test of CAPI procedures using 200 test cases which we obtained approval for under this clearance in 1994.

II. Method of Collection

The Bureau of the Census uses its FRs to collect the data. The FRs mail a letter with a facsimile of the survey form to owners or builders. The letter tells the owners or builders to retain the form for use when the FR telephones or visits them within a few days. If the FR is unable to conduct an interview, she/he will try to get some information by visiting the construction site. After July 1997, the FRs will collect the data using CAPI.
