BILLING CODE 4210-33-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WO-320-4130-02-24 1A]

RIN 1004-AC39

Notice of Proposed Information Collection

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is announcing its intention to request approval for the collection of information annually from holders of unpatented mining claims concerning use and occupancy of their claims.

DATES: Comments on the proposed information collection must be received by April 15, 1996 to be assured of consideration.

ADDRESSES: Comments may be mailed to: Regulatory Management Team (420), Bureau of Land Management, 1849 C Street NW., Room 401LS, Washington, D.C. 20240.

Comments may be sent via Internet to: WO140@attmail.com. Please include "ATTN: U&O-Info" and your name and return address in your Internet message. Comments may be hand-delivered to the Bureau of Land Management Administrative Record, Room 401, 1620 L Street NW., Washington, DC. Comments will be available for public review at the L Street address during regular business hours (7:45 a.m. to 4:15 p.m.), Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Richard E. Deery, (202) 452-0353.

SUPPLEMENTARY INFORMATION: In accordance with 5 CFR 1320.8(d) BLM is required to provide 60-day notice in the Federal Register concerning a proposed collection of information to solicit comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c)

ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Accordingly, none of the information proposed to be collected as described below will be required until comments have been received and analyzed and approval has been obtained from OMB under 44 U.S.C. 3501 *et seq.* and a clearance number assigned.

In a proposed rule published in the Federal Register on September 11, 1992 (57 FR 41846), BLM proposed to establish procedures for managing existing and future use and occupancy of mining claims on BLM-administered lands consistent with the mining law (30 U.S.C. 612) and the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733). Generally, under the terms of the proposed rule, any newly proposed activity on public lands involving occupancy or fencing to exclude the public would have to be acknowledged by BLM as reasonably related to mining prior to the initiation of occupancy or fencing. Under the proposed rule, anyone planning to use mining claims or the public lands under the mining law for occupancy would have to submit the following information to BLM, in addition to the information currently required by 43 CFR subparts 3802 and 3809:

1. A map is sufficient detail to identify the site and placement of (a) temporary or permanent structures, (b) fences and signs intended to exclude the public, and (c) public passage or access routes through or around the area; and

2. A written description of (a) how the proposed occupancy relates to activities reasonably incident to prospecting, mining, or processing operations, (b) how the proposed occupancy meets the standards of § 3715.2 of the proposed rule, and (c) the estimated period of use and schedule for removal and reclamation. The proposed rule would also allow a grace period during which existing occupancies would have to come into compliance with the provisions of the regulations. To take advantage of the grace period, existing occupancies would have to be recorded with BLM through submittal of the same information described above. The information is mandatory to obtain a benefit, use of the public lands open to the mining laws for occupancy reasonably incident to prospecting, mining, or processing operations.

Based on its review of comments on the proposed rule, BLM does not anticipate significant changes in the final rule. BLM is considering, however, changing the information requirements for existing occupancies by significantly reducing the up-front information required to obtain the one-year grace period. The reduction in the up-front reporting burden would be realized through the use of a simple form that takes about 10 minutes to fill out. The burden of providing the information would remain, but would be required for existing occupancies only after the benefit of the grace period is obtained. The information proposed to be collected from existing occupancies for recording purposes would subsequently be gathered by BLM field staff.

The public reporting burden for this entire collection, including the simplified form and collection of information during the inspection process, is estimated to average two hours per response. The respondents are mining claimants and operators of prospecting, exploration, mining, and processing operations. The number of responses per respondent is one per operation. The number of new responses is estimated to be 130 per year. The estimated total annual burden on new respondents is collectively 260 hours. The estimated number of respondents possessing existing occupancies is 1,950. The total annual burden on respondents with existing occupancies would be a function of the number of inspections carried out in any given year. The total burden for these respondents would collectively total 3,900 hours spread over a two- to three-year period, depending on the availability of funding to conduct inspections.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

Dated: February 7, 1996.

Annetta Cheek,

Leader, Regulatory Management Team.

Notice of Prohibited Acts in the Wallowa/Grande Ronde Rivers Area

AGENCY: Vale District, Baker Resource Area, Oregon, Bureau of Land Management.

ACTION: Notice of prohibited acts and restrictions within the boundaries of the

Wallowa/Grande Ronde Rivers Final Management Plan.

SUMMARY: The Vale District is initiating certain closures and restrictions as part of the implementation of the 1993 Wallowa/Grande Ronde Rivers Final Management Plan, and in order to protect and enhance the outstandingly remarkable values (ORV's) for which the river was designated. The closures and restrictions are the minimum necessary to protect ORV's and maintain recreation opportunities. Personnel that are exempt from the closures and restrictions include any Federal, State, or local officer, or member of any organized rescue or fire-fighting force in performance of an official duty, or any person authorized by the Bureau of Land Management. Pursuant to 43 CFR 8351.2-1(f), the following acts are prohibited on all public lands within the boundaries identified on the Wallowa/Grande Ronde Rivers Administered by the Bureau of Land Management:

Violation of these prohibitions is punishable by a fine of not more than \$500 or imprisonment for not more than 6 months or both. (Title 16 U.S.C. 1281) and (Title 16 U.S.C. section 3).

1. Camping

A. Camping in any area posted as "Closed" to that use.

B. Installation of permanent camping facilities.

C. Camping below high water line.

2. Fire

A. Building or maintaining any open campfires except those contained in a fireblanket, firepan or similar metal container with sides measuring at least 2" in height.

B. Failure to remove campfire debris from the river corridor and disposing of it in a refuse container.

3. Sanitation and Refuse

A. Disposing of refuse in other than refuse receptacles.

B. Leaving campground equipment, site alterations or refuse after departing any campsite or in any unoccupied campsite.

C. Disposal of solid human waste except at designated locations or facilities provided for that purpose.

4. Vehicles

Accessing the river corridor by motor vehicle in areas closed to that use.

B. Operation of a motor vehicle in violation of any Oregon or Washington State law.

5. Other Acts

A. Failure to possess a commercial guide permit as required by the Bureau of Land Management (Baker Resource Area) and United States Forest Service (Walla Walla Ranger District).

B. Taking, attempting to take, or possession of any fish or wildlife in violation of any Oregon or Washington State law or other regulation.

C. Defacing, disturbing, or removing any historic or prehistoric feature or artifact.

D. Violation by commercial permittees of any stipulation outlined in the Guidelines for Commercial Use of Rivers in the Vale District, in cooperation with United States Forest Service (Walla Walla Ranger District).

E. Violation of any Oregon State Marine Board regulation.

The lands administered by the Bureau of Land Management to which this order applies are within the administrative boundary of the Wallowa/Grande Ronde Rivers. Legal Description of the administrative boundary can be viewed at the Vale District office or is available in the above mentioned management plan.

FOR FURTHER INFORMATION CONTACT: Gloria Brown, Baker Resource Area Manager, Bureau of Land Management, 1550 Dewey Avenue, Baker City, OR 97814, Telephone 541 523-1256.

James E. May,

District Manager.

Notice of Intent; Prepare Michigan Lighthouse Planning Analysis/Environmental Assessment

ACTION: Notice of Intent.

SUMMARY: The Bureau of Land Management (BLM), Milwaukee District, is initiating the preparation of a Michigan Lighthouse Planning Analysis/Environmental Assessment (PA/EA) to address the future management and treatment of properties withdrawn for lighthouse purposes in the State of Michigan.

This notice is issued pursuant to Title 43, CFR, Sec. 1610.2 (C). The planning effort will follow the procedures set forth in 43 CFR, Subpart 1600.

The public is invited to participate in this land use planning effort. The BLM is seeking written comments providing suggestions, solutions and criteria for the long-term management of the public domain tracts withdrawn for lighthouse purposes in the State of Michigan.
