This notice also lists the following information:

Title of Proposal: A Survey of Rents, Vacancy, and Amenities in Multifamily Projects in Michigan.

Description of the need for the information and proposed use: HUD has three primary needs for the information to be collected from this survey. The first is for our Portfolio Re-engineering Demonstration. Under that demonstration, the department is to explore ways to resolve the over-subsidization of HUD insured projects receiving project based Section 8. If Portfolio Re-engineering is to be implemented, it is crucial that HUD know what the appropriate market rent is for different unit sizes at individual developments.

The second is HUD's annual adjustment factors for Section 8 project based subsidy. With this survey, we will know what are the appropriate adjustments.

The third is to assist HUD in its overall underwriting process. The department insures mortgages for market rate multi-family developments. As part of its determination on whether HUD should insure the project, HUD conducts a market study and does an appraisal. This survey will greatly improve the accuracy and efficiency of this process.

Members of affected public: We estimate that 3,000 housing managers in the state will be surveyed.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: Information will be collected from approximately 3,000 managers of multifamily rental developments in the State of Michigan. The 15 minute mail survey is planned to be conducted annually. The information being requested is information normally maintained by housing managers. The total annual burden for respondents is estimated at 750 hours.

Status of the proposed information collection: Pending OMB approval.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: October 23, 1996.
